El Granada & Miramar Proposed Projects

Half Moon Bay Boundary

Proposed Crossing

School

Proposed Bike Parking

Existing Bus Stop

Proposed Parking Improvements

Proposed Stop Sign

Proposed Sidewalks

Proposed Striped Bike Lane

Coastal Trail

Existing Route

Recommended Route

HWY 1 Improvements

Village Zone

Proposed Parallel Trail

Separated Multimodal Trail

Highway 1 Improvements

- Create a consistent, safe roadway design for Highway 1 in the El Granada and Miramar areas
- Add curbs and gutters to define the roadway edge; ensure consistent lane widths less than 12 feet where desirable to slow motorists; and add raised medians where currently striped

Parking Improvements

- Create a parking lot between Highway 1 and Avenue Alhambra (specific location to be determined)

Signage Improvements

- Improve the safety of intersections and roadways by adding signs for drivers, pedestrians and cyclists
- Add stop signs to side streets that intersect with Highway 1

WALK

Midcoast Parallel Trail

- Create a multimodal Midcoast Parallel Trail on the east side of Highway 1 that will connect Montara, Moss Beach, El Granada, Miramar and Half Moon Bay
- Separate the trail from Highway 1 in order to provide a safe way for people to walk and bike between Midcoast communities

Example of a multimodal trail

California Coastal Trail

- Complete the Coastal Trail from Montara to Half Moon Bay
- Work with community members to plan improvements to the existing trail route

Sidewalks & Safe Routes to School

- Make it safer and easier for students and families to walk to Wilkinson School and El Granada Elementary School
- Build new sidewalks and crosswalks that will create continuous walking paths on Coronado Street, Obispo Road and Avenue Alhambra

Street crossing with striping and beacons

Pedestrian Crossing Improvements

- Install crossings across Highway 1, along the Parallel Trail and on neighborhood streets
- Improve existing crossings and add new crossings with high-visibility striping and pedestrian activated beacons

BUS

Bus Stop Improvements

- Improve bus stops by adding benches or shelters
- Make it easier to walk to bus stops by adding street crossings and sidewalks

BIKE

Bike Lanes and Bike Parking

- Add striped bike lanes along Highway 1 throughout the Midcoast area
- Install bike parking in areas of high bicycle use (e.g. Pillar Point Harbor and El Granada)
