QUESTIONS COMMENTS:

Please consider impact on nearby neighborhoods as people cut through to avoid Alameda, being one lane. Lucky Av would be obvious cut-through to get to Avy and downtown MP - and we just got 7 huge new homes with ADU's built on little Lucky Ave so traffic will already be massively increased with many more residents on the street, ~~more~~ more parked cars on the street.

QUESTIONS/COMMENTS:

I disagree with the guy who called this a "cram-down." There has been plenty of notice and discussion. I'm generally in agreement with the plan. Most people here favored slower traffic and more safety, and so do I. Pushing cut-through traffic onto Sharon and Ave could be a problem, so some adjustments there may end up being necessary. I only heard one* person advocate for maintaining the lanes and the traffic speed, and he's clearly in the minority.

QUESTIONS/COMMENTS:

Love the idea of new sidewalks - long overdue! Like many of the designs. Worry a bit about the reduction of lanes. It's already difficult to pull in/out of driveways during rush hour and if traffic gets worse that would be a problem. Design seems a little too biased for safety but I'm still supportive.
Would support smaller islands in some locations in middle.
