COUNTY OF SAN MATEO OFFICE OF CONTROLLER

TOM HUENING, CONTROLLER

Members of the Board of Supervisors and Citizens of San Mateo County:

December 12, 2003

The Comprehensive Annual Financial Report (CAFR) of the County of San Mateo (County) for the fiscal year of 2002-03 is presented in compliance with Section 25253 of the Government Code of the State of California. This report was prepared by the Office of the County Controller, which is responsible for both the accuracy of the presented data and the completeness and fairness of the presentation including all disclosures. We believe the data, as presented, is accurate in all material aspects and presented in a manner designed to fairly set forth the financial position and results of operations and cash flows, if applicable, of the County, as measured by the financial activity of its various funds, and that all disclosures necessary to enable the reader to gain the maximum understanding of the County's financial affairs have been included.

The CAFR represents the culmination of all budgeting and accounting activities engaged in by management during the year, covering all funds of the County and its financial transactions. The CAFR is organized into three sections:

- The <u>Introductory Section</u> is intended to familiarize the reader with the organizational structure of the County, the nature and scope of the services it provides, and the specifics of its legal operating environment set within the context of the local economy.
- The <u>Financial Section</u> includes the independent auditor's report on the basic financial statements, Management's Discussion and Analysis (MD&A) of the County's overall financial position and results of operations, the audited basic financial statements, notes to the basic financial statements, required supplementary information, and combining and individual fund statements and schedules to provide readers with a comprehensive understanding of the County's financial activities of the past fiscal year. This letter is designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found on pages 3-14 of this report.
- The <u>Statistical Section</u> contains comprehensive statistical data on the County's physical, economic, social and political characteristics.

THE REPORTING ENTITY

The County of San Mateo, California, established by an Act of the State Legislature in 1856, is a legal subdivision of the State of California charged with governmental powers. The County's powers are exercised through a Board of Supervisors (Board), which, as the governing body of the County, is responsible for the legislative and executive control of the County. The County provides various services including public protection, road construction and public facilities maintenance, sanitation, health and social services, elections and records, planning, zoning and tax collection.

The governmental reporting entity consists of the County (Primary Government) and its blended and discretely presented component units. Component units are legally separate entities for which the primary government is financially accountable or other organizations for which the nature and significance of the relationship with the primary government are such that exclusion would make the enclosed financial statements misleading or incomplete.

Blended Component Units

San Mateo County has four independent fiscal agencies that are considered blended component units for reporting the financial results of the County. They vary widely in function and provide essential services.

• The San Mateo County Joint Powers Financing Authority (JPFA) assists the County in the financing of public capital improvements. JPFA is reported as a major governmental fund in the County's financial statements.

- The San Mateo County Employees' Retirement Association (SamCERA) administers the financial activities of the County's pension plan. SamCERA is reported as a Pension Trust Fund in the County's financial statements.
- The Housing Authority of the County of San Mateo (Housing Authority) provides housing assistance to low and
 moderate income families. The Housing Authority is reported as a major enterprise fund in the County's financial
 statements.
- The In-Home Supportive Services (IHSS) Public Authority assists consumers in finding in-home supportive services
 personnel, provides training and support for providers and recipients and their families, and performs other functions
 related to the delivery of in-home supportive services. The IHSS Public Authority is reported as a special revenue fund
 in the County's financial statements.

Discretely Presented Component Unit

First 5 San Mateo County (First 5), previously presented as the Children and Families First Commission, was established in March 1999 under the authority of the California Children and Families First Act of 1998 and sections 130100, et seq. of the Health and Safety Code. The Board appoints all members of the First 5. The Board can remove appointed members at will. The First 5 accounts for receipts and disbursements of California Children and Families Trust Fund allocations and appropriations. The First 5 is a discretely presented component unit as the governing body of the First 5 is not substantially the same as that of the County, and the First 5 does not provide services entirely or almost entirely to the County.

ECONOMIC CONDITIONS AND OUTLOOK

San Mateo County is one of 58 California counties and one of the nine counties in the San Francisco-Oakland Bay Area. The County covers 447 square miles (ranked 56th among the 58 counties for land size). It is located on a peninsula that is flanked by the Pacific Ocean on the west, the San Francisco Bay on the east, the City/County of San Francisco to the north, and the counties of Santa Clara and Santa Cruz to the south. Most of the estimated 720,630 residents live along the densely populated north-south transportation corridor between the counties of San Francisco and Santa Clara. The County is home to 20 cities and the San Francisco International Airport. Seventy-four percent of the County's land is reserved for agriculture, watershed, open space, wetlands or parks that contribute to its urban/rural characteristics and natural beauty. Key public policy issues relate to the economy, land use, congestion management and quality of life.

The County has a charter form of government. A five-member Board of Supervisors, each elected to four-year terms, serves as the legislative body. Members run at-large in non-partisan elections but must reside within a specific district. A County Manager is appointed by the Board and runs the day-to-day business. The County Manager appoints the heads of seven agencies/departments. The Board appoints the County Counsel and the Director of the Child Support Services. Elected officials include the Assessor-Clerk-Recorder, Controller, District Attorney, Treasurer-Tax Collector, Sheriff and the Coroner.

The County's demographic makeup mirrors California; it is rich in diversity with a plurality of ethnicities. Approximately half of the residents are Caucasian, while Asian/Pacific Islanders and Hispanics each comprise a little more than 20%. African-Americans comprise 3.3% and those identifying themselves as "Two or More Races" comprise 3.2%. Of the estimated 255,000 households in the County, roughly two-thirds are identified as "family households" and about half of the "family households" include children under 18 years of age. The median age in the County for both sexes is 36.8 years and increasing.

The County consistently ranks in the top five of California counties in terms of highest per capita personal income and lowest percentage of persons below poverty level. The County is one of the safest urban/suburban counties in California, an indicator of the area's relative economic prosperity.

Employment Trends

The County's unemployment rate averaged 5.16% for FY 2002-03, up from the 4% average for FY 2001-02. This compares with an unadjusted unemployment rate of 6.3% for California and 5.8% for the nation. Layoffs have dominated the headlines reflecting the rise in unemployment. Statistics released by the State's Employment Development Department show that, between June 2002 and June 2003, approximately 22,900 jobs were lost in the West Bay region (San Mateo, San Francisco and Marin counties). San Mateo County lost approximately 9,160 jobs which represents close to 40% of the losses of this West Bay region. The services sector provides a third of all jobs in the County. Of the 22,900 jobs lost, 9,000 were professional and business services including 3,200 from information services and 2,800 from the leisure and hospitality sector (many lost at San Francisco International Airport).

The Travel Industry

In calendar year 2000 San Francisco International Airport (SFO), which is located in the County, was ranked the 5th largest airport in the nation for passenger travel. In just two years, SFO has dropped to the 11th largest airport for passenger travel. Preliminary statistics show that passenger traffic continued to decline in FY 2002-03. This downward trend reflects the events of 9/11, the war with Iraq, the depressed Bay Area economy and the impact of SARS on Pan Pacific Travel. Traditionally, the County has had an abundance of jobs and tax revenue generated by the hospitality, transportation and service industry sectors. However, in FY 2002-03, hotel occupancy rates averaged 56.3% while room rates averaged \$118 for the County's 15,000 hotel rooms. Garage and parking lot use fell 14.3%. United Airlines (the County's largest employer) cut 25% of its flights, laid off employees and filed for protection under Chapter 11 of the Federal Bankruptcy Act. Other carriers have also downsized. The one bright spot was the 8.1% increase in the total cargo and mail traffic.

Commercial and Residential Real Estate Trends

The County has 34,347,131 square feet (s.f.) of net rentable office space. For the past two years, the demand for office space has decreased while the supply of new office space has increased. The result is a very competitive commercial real estate market. Class A office space is being offered at \$2.25/s.f. and the office vacancy rate is nearly 25%. This contrasts with the average asking rate of \$6-\$12/s.f. just two years ago. The current market conditions have halted all commercial development projects. The completion of 500 Forbes building project for Cell Genesys in South San Francisco emptied the pipeline of all planned industrial construction while the completion of Kaiser Permanente Health System's new office project in Daly City and Visa's new office building in Foster City signaled the end of all planned office space development. After ten quarters of decline, the key indicators of vacancy, availability, net absorption and lease rates all indicate that the market is stabilizing. This is the first step toward recovery, however, an economic turnaround is not expected in the near future.

Despite the depressed local economy, residential property values remained among the highest in the nation. While the slowing economy has created a slight measure of housing relief, demand has far outpaced supply for several years. This gap combined with the lowest mortgage interest rates in 45 years and a soft stock market kept the residential real estate market very active. At the close of FY 2002-03, the median price for a single family home was \$644,000 representing a 3.87% increase over the prior year. The median price for a townhouse was \$395,000, which was slightly higher than the prior year. Home sellers received an average of nearly 98% of the listed price. The number of residential properties on the market increased by 25% compared to last fiscal year. Home ownership remains out of reach for many service employees, teachers, public safety employees and tradespeople. The average rent for a 2-bedroom/2-bathroom apartment fell 6.9% to \$1,766/month in FY 2002-03 according to the Tri-County Apartment Association. Occupancy rates for rentals averaged 93%, which is comparable with last year. The City/County Association of Governments (C/CAG) has projected a housing deficit of 15,600 units by the end of the decade. Housing remains a significant challenge for residents, employers and policymakers.

Major Infrastructure Improvement Projects

FY 2002-03 heralded the completion of two major Bay Area transportation projects with a third on the way. Local leaders have worked diligently to bring these projects to completion. Because many workers are forced to reside outside the County due to the high cost of living and shortage of the housing, the freeways have been operating at maximum capacity handling the combination of local traffic and out-of-county commuters. The completion of these projects will help alleviate congestion, support the County's economic vitality and improve the quality of life.

In June 2003, the Bay Area Rapid Transit District (BART) opened four new stations in San Mateo County, the culmination of a 16-year, voter approved project. The stations are located in South San Francisco, San Bruno, Millbrae, and inside the SFO terminal. The Millbrae station (across the freeway from SFO) was designed as an intermodal, cross-platform station linking Caltrain (commuter rail), rapid rail (the coming "Baby Bullet"), SamTRANS (the County's bus system) and BART. The system will serve an estimated 70,000 new daily riders by 2010, eliminate 10,000 daily auto trips to SFO and relieve congestion on the County's main transportation corridor. Transportation leaders are working on a smart pass to allow transit passengers to use any of the 29 Bay Area transit systems with a single card.

In October 2002, Caltrans, the State Highway Division of Transportation, completed a 3-lane bridge span adjacent to the San Mateo/Hayward Bridge. Each span now carries one-way traffic improving the capacity and the safety of this bottlenecked nine-mile Peninsula and East Bay connector stretch.

The third major project is an upgrade of Caltrain, the three-county commuter railway system that runs between San Francisco and Gilroy. Caltrain is adding and upgrading tracks to carry the "Baby Bullet", an express rail service from San Francisco to San Jose. Service is expected to begin midyear 2004. Weekend service was discontinued in April 2002 to provide the downtime necessary for this capital improvement. Ridership has also suffered in this economy. Officials hoped that it would buoy with the completion of the BART/SFO project, but now expect a lag period due to the economy.

Measure A, the 1988 voter approved transportation initiative, established a 20 year ½ cent sales tax to fund local transportation improvements including grade separations, freeway interchanges, transit projects, paratransit programs and road improvements. Transportation leaders on the Board of Supervisors have publicly indicated their intent to lead an effort in 2004 to reauthorize this tax, which is set to expire in 2008, to fund future congestion management projects.

Tax Revenue

County sales tax revenue fell slightly by \$273,000 or 1.7% from \$16,155,000 in FY2001-02 to \$15,882,000 in FY 2002-03, indicative of the stagnant local economy.

The total taxable assessed value of all property for FY 2002-03 was \$95,455,006,571, an increase of 5.9% or about \$5.3 billion more than the previous year. This is reflected in the annual increase in property taxes levied of \$61,640,000 in FY 2002-03 over the prior year and an active real estate market.

The total taxable assessed value of the secured property (real property) for FY 2002-03 was \$85,595,412,478, an increase of 10.7% or about \$5.4 billion more than the previous year. This is primarily due to the active real estate market that was fueled by rock bottom interest rates and an idling stock market.

The total taxable assessed value of the unsecured property (personal property) for FY 2002-03 was \$9,859,594,093, a decrease of 0.78% or about \$77 million less than the previous year. The decrease was primarily due to a decline in airport travel as a major portion of the unsecured roll is derived from the airline and car rental fleets that have been diminished or relocated to areas where property taxes are lower.

The impacts of 9/11 on property tax are still unfolding. Most of the airlines operating out of San Francisco, as well as a number of other airport-based concessionaires, filed calamity reassessment claims with the San Mateo County Assessor. These claims were denied because, as provided by statute, the claimants did not suffer physical damage to their property located in San Mateo County. The California State Board of Equalization (SBE) subsequently adopted a new property tax rule, which would, in some cases, afford property tax relief to taxpayers that claim economic losses even in the absence of physical damage to their property. California Assessors have challenged this property tax rule as unconstitutional and this action is in progress. Assessment appeals of the FY 2002-03 assessments are still outstanding. Activity at SFO is still declining and has resulted in lower assessed values at the airport. The FY 2003-04 assessed values are 3.75% lower than those enrolled in FY 2002-03.

Transient Occupancy Taxes (TOT), after dropping precipitously in FY 2001-02, continued to decline. A total of \$589,900 was earned in FY 2002-03 as compared to \$665,800 in FY 2001-02 when travel plummeted after 9/11. This is consistent with the decline in airport passenger travel and hotel occupancy rates. The County used to receive a million dollars a year in TOT from a deluxe airport property hotel that was torn down in the airport renovation project. Plans to replace this property have been postponed indefinitely.

Proposition 172 Sales Tax, the Public Safety Fund, yielded \$64,180,000 in FY 2002-03 as compared to \$67,547,000 in FY 2001-02. These funds, based on a statewide formula, are restricted to public safety purposes and are allocated to Cities, the Sheriff, District Attorney, Probation, Coroner, County Fire and Public Safety Communications Dispatching.

Proposition 10, a ballot initiative known as Children and Families First, increased tobacco taxes to fund early childhood (ages 0-5) development programs. First 5 San Mateo County (formerly known as Children and Families First) received \$9,759,000 in FY 2002-03, a decrease of approximately 2.6% or \$261,000 less than the prior year. Another tobacco-related source of revenue, the tobacco lawsuit settlement, brought in \$8,638,000, an increase of \$384,000 or 4.7% over the prior year's \$8,254,000. Tobacco settlement money is used for County Health Services.

MAJOR INITIATIVES AND SERVICE EFFORTS AND ACCOMPLISHMENTS

Health Services and the San Mateo Medical Center

The County operates a full service hospital. In 1994, the Board of Supervisors approved the construction of a new facility. The final phase of the construction of the San Mateo Medical Center (SMMC) was completed this year. SMMC is a state of the art, integrated health center combining a full service hospital, mental health services, pharmacy operations, a rehabilitation center and an administration building. The new SMMC has increased the capacity to serve the medically indigent and insured residents. The project cost \$125 million and was financed with lease revenue bonds.

Health care costs have continued to spiral. The County General Fund subsidy to the SMMC for FY 2002-03 was \$39 million.

In April 2003, the State Department of Social Services (SDSS) approved a three-year administrative waiver to permit Mental Health to operate the Canyon Oaks Youth Residential Treatment Facility. This is the only such waiver for a county residential treatment program in California. Mental Health also received approval for a residential reimbursement rate and an operating license from SDSS. The program is expected to open in August 2004. It will serve 12 seriously emotional disturbed youth. Priority will be granted for local youths being served in out-of-county-residential treatment facilities.

In October 2003, the County assumed control of the Burlingame Healthcare Center, a 281-bed skilled nursing facility that had been in State receivership since November 2002 due to the bankruptcy of its previous operator. The current census is approximately 140 patients. Given the County's aging demographics, this facility will help address a growing unmet need.

During FY 2002-03, health insurance was provided to approximately 30,000 children in San Mateo County. The Health Services Agency in partnership with the Human Services Agency has aggressively enrolled children in medical insurance programs including Medi-Cal, Healthy Families and the new Healthy Kids program. This year, the Board allocated \$1.5 million for the Healthy Kids Program that has a total budget of \$4.5 million. As of mid-May 2003, 2,231 children had been enrolled in Healthy Kids, 35% of those estimated to be eligible for the program. Approximately 95% of the enrolled children are from families with incomes below 250% of the federal poverty level; nearly all are undocumented and therefore do not qualify for MediCal or Healthy Families.

Human Services. Between 1998 and 2002, the County had a steadily declining rate of families on public assistance compared to California as a whole. During this period, the County's public assistance, or CalWORKs, rate decreased at 1.9 times the rate of the state. The total number of CalWORKs participants in the County decreased by 68.9% (statewide, the number of recipients decreased 35.5%) and the total number of Food Stamps recipients in the County decreased by 22.5% from 7,115 to 5,515 (statewide, the number of recipients decreased 27.3%). The County has increased the proportion of CalWORKs recipients under age 18 from 76.9% of all recipients in 1998 to 82.9% in 2002. Statewide in 2002, only 77.7% of CalWORKs recipients were under age 18.

The Office of Housing secured additional Section 8 housing vouchers, linking families on cash aid with affordable housing for the innovative Moving-to-Work program. This program helps low-income families move from public assistance to economic self-sufficiency. Between 1999 and 2002, the County's Moving-to-Work caseload increased 68.8% from 349 to 589; statewide, the Moving-to-Work caseload decreased 21.2%. While these statistics are impressive, the current economic slump has created an additional demand for services. The success rates deteriorated somewhat and the costs for providing services escalated. Because the statistics are reported on a calendar year basis, the impacts reported in FY 2002-03 are diluted by the averages of prior year successes and a stronger local economic base.

Due to the downturn that began in 2001, the Human Services Agency, along with collaborative partners, secured additional funding to expand employment and training services. These services are provided through PeninsulaWorks, the County's one-stop employment centers, to help dislocated workers, particularly those severely affected in the airline, travel, and hotel industries. Additional funding allowed for the opening of a temporary employment center near the San Francisco International Airport, temporary emergency cash assistance, and training for new careers.

The Human Services Agency's expenditures increased 2.8% from FY2001-02 to FY2002-03. This growth reflects increased labor costs, growth in funding for substance abuse treatment for clients in the criminal justice system, increased placement costs for Foster Care, and caseload growth in CalWORKs and General Assistance programs. These increases were offset in part by lower expenditures for housing projects, childcare and facilities and automation infrastructure upgrades compared to the previous fiscal year.

Child Support Services. In FY 2002-03, the San Mateo County Department of Child Support Services processed 14,768 child support cases and collected \$30.4 million on behalf of approximately 22,000 dependents. The percent of dollars of current support collected is 56.4%. The County is the 8th ranked county in the state for collections. Among those counties with caseloads over 2,500, the County is ranked 3rd in the state for collections. Child Support Service departments collect arrearages until the debt is paid in full, which can take a number of years in some cases. San Mateo County is ranked 2nd in the state with its 67% rate of collection on arrearages.

Public Safety

Crime Suppression. According to the FBI Index, San Mateo County reported 2.7 crimes per capita as compared to the Bay Area counties average of 3.7 crimes per capita and the state's average of 4 crimes per capita. It ranks as the third safest Bay Area County, only slightly behind Napa and Marin. Crimes included in the FBI index are criminal homicide, forcible rape, robbery, assault, burglary, larceny, theft, arson and motor vehicle theft. The most current available statistics reflect the calendar year 2001.

Sheriff's Forensic Laboratory. A 30,000 square feet state-of-the-art Forensic Lab opened in January 2003. The total project cost is \$17 million with an annual debt service anticipated to be \$730,000. The Sheriff's budget covered the design fees, geotechnical and environmental consulting fees, and administrative costs. The facility has been designed with a half-acre of photovoltaic energy panels to reduce energy consumption costs. The Coroner's Office is now headquartered in this facility. It is the only full service forensic laboratory in the County able to analyze evidence including fingerprints, firearms and bullet/casings, gun shot residues, trace comparisons for hair, fiber, fabric, rope, tape, tires, shoes, glass, forensic biology analyses for sperm, blood, enzyme and DNA, toxicology testing for drugs and alcohol, as well as document analysis for handwriting, ink and paper. Forensic scientists also provide crime scene investigations.

Probation-Youth Center. The County has begun the planning for a new \$125 million Youth Center. It is a collaborative project expected to meet the needs of juveniles and their families who are involved with our criminal justice and/or social services systems. The Center will replace the inadequate, 55-year old Hillcrest Juvenile Hall. As planned, the Center will have 180 secure beds, a 30-bed girls camp and a 24-bed group home complex. The project includes the construction of the new Juvenile Hall, Girls Ranch, Receiving Home, Probation Administrative Office, Juvenile Probation and Juvenile Courts. The County intends to construct the project with the sale of lease revenue bonds. The County did receive a state-administered federal juvenile justice grant of \$21 million to fund a portion of the Juvenile Hall component.

Emergency Services Council Joint Powers Authority and the County Radio Project. The Mutual Aid/Emergency Services Council (ESC) \$25.6 million upgrade of the County Radio System was completed in January 2003. It was partially financed with \$16.5 million of bond proceeds. This countywide mutual aid and tactical communications project converted the County's aging analog system to a digital and microwave system. The Sheriff's Radio System upgrade project will bundle a number of radio frequencies in a "pipeline" allowing multiple conversations between agencies and units to take place simultaneously. This will improve the efficiency and effectiveness of all of the emergency response agencies in the County. Project completion is anticipated in January 2004. Funding sources include bond proceeds, State and federal funds, public safety sales tax revenue, charges to user agencies and the County's General Fund.

Public Works

RecycleWorks, the County's recycling and composting program by presenting a "green" lecture series, operates a comprehensive website, www.recycleworks.org, as well as a hotline and numerous outreach and public education programs to encourage residents to recycle, reuse, and otherwise practice "green" strategies in their daily lives. The County's internal efforts at recycling have been impressive. Mixed paper recycling in County facilities topped 100 tons this year and a program to recycle bottles and cans has begun.

Facilities & Infrastructure Improvements. Using the County's Facilities Assessment Program developed in 2001 which identified and quantified physical deficiencies in 74 facilities and made recommendations to address the deficiencies, the Department prioritized the next stage of the seismic retrofit project for the Hall of Justice & Records, the ADA compliance renovation projects, and the upgrading of various Heating/Ventilation/Air Conditioning (HVAC) systems for energy conservation projects.

A Computerized Maintenance Management System to provide information to better manage as well as schedule routine and preventive maintenance activities for County facilities was acquired this fiscal year. System implementation began in July 2003. Initial use of the system will be to support the Road, Facility, and Wastewater programs. Future use will cover other programs including Street Lighting and Flood Control programs. The system will help the Department improve operations, control costs and be more responsive to customers.

Energy Conservation. Through a number of innovative programs, the County has managed to significantly reduce the consumption of both electricity and gas in County facilities. Since 2001, over 25,000 new energy efficient lamps and ballast have been installed in County facilities. Both the 555 County Center and the new Forensic Lab were designed for efficient energy usage. The County received the Environmental Protection Agency's Energy Star Award for the 555 County Center and the new San Mateo County Forensic Lab was named to the 2003 "Top 10 Green projects" list by the American Institute of Architects (AIA).

Information Services. In 2003, the San Mateo County's Information Services Department completed the e-Government project. The primary goal of this project was to provide County services over the web and to provide an additional means of communication with residents. To ensure website availability and quick website response times, a new technology infrastructure has been installed. San Mateo County's e-Government environment uses new technology software systems that allow individual departments to update their web pages. This decentralized approach will keep San Mateo County's web content current. San Mateo County's e-Government model was developed using the latest "common terminology based

navigation". The use of common terminology based navigation means that all visitors to San Mateo County's web site are able to locate the information they are searching for regardless of web experience. This new navigation architecture was developed by San Mateo County's Information Services Department in collaboration with Nevada County, the State Libraries, and the State Department of General Services. This navigation architecture has been recognized by California State Association of Counties (CSAC) and has since been used by numerous other counties.

Environmental Services

In 2001, the County acquired the eastern parcel of the Mirada Surf property, which included an option to buy the western parcel for \$3 million provided the transaction was completed by July 30, 2003. This year the San Mateo County Parks Foundation secured a \$1.5 million State Coastal Conservancy grant along with Proposition 12 funding (a Land and Water Conservation Fund grant) and private fundraising to exercise this option. This 60-acre coastal property will be dedicated to open space and habitat conservation, public access and outdoor recreation forevermore.

Legal Issues and Liabilities

On October 14, 2003, the California Supreme Court announced that it would not accept any appeals of the Ventura II decision. This ruling granted the Ventura decision the force of law. The Ventura decision, in which the State Supreme Court broadened the definition of "compensation earnable" to include a few pay items SamCERA had not previously included, must be applied retroactively. All current retiree benefits must be recalculated if any of those new pay items were excluded from the calculation of their benefits. "Terminal Pay" is excluded from "compensation earnable." The Retirement Board has the authority to collect member contributions retroactively from all current and retired members on all new "compensation earnable" added by Ventura. SamCERA's actuary estimated that the decision would increase pension benefits by \$16.2 million as of 6/30/2002 plus attorney fees. The increased pension benefits will be paid through the Ventura contingency reserve fund of \$32.1 million.

FINANCIAL INFORMATION

The Board of Supervisors, County Manager, and departments have been proactive in their response to the downturn in the economy and the State budget crisis. The Countywide hiring freeze first placed on all vacant positions in mid-November 2001 continues. Departments were directed to produce budgets reflecting reductions of 8% and up to 20% of their Net County Cost. In the June budget hearings, the Board eliminated 89 permanent positions through the budget process. The County's takeover of the Burlingame Health Center resulted in an increase of 270 positions and another 20 positions were added for the Human Services Medi-Cal TeleCenter for an overall increase of 201 positions. Employee and Public Services was successful at placing most of the employees who occupied positions that were eliminated. The Board of Supervisors approved the Recommended FY 2003-04 and FY 2004-2005 budgets in June, with the understanding that interim steps might be necessary once the State budget was adopted or the State budget situation worsened.

The County's Reserves Policy established minimum requirements for Departmental Reserves (2% of Net Appropriations, excepting Service Departments), General Fund Appropriation for Contingencies, Reserves for Countywide Capital Improvements, Reserves for Automation Projects, and guidelines for the use of these funds. The policy has helped the County maintain fiscal stability and continue the provision of critical programs and services in this period of economic uncertainty. The State's efforts to deal with the negative \$50 billion dollar budget swing have just begun. The County will maintain its fiscally conservative approach in anticipation of future negative fiscal impacts from the State's deficit.

All of the County's three-year labor contracts expired in FY 2002-03. Contract negotiations led by the Employee and Public Services Department produced four-year agreements with the major labor unions and increases of four percent in FY 2002-03, three percent in FY 2003-04 and FY 2004-05, and four percent in FY 2005-06. Substantial improvements to the retirement packages were also approved. The four-year contracts provide the County with stability in labor costs and help with longer term planning.

The primary fiscal agents for the County—the Board of Supervisors, County Manager, Controller, Assessor and Treasurer have made public access to financial information a priority. The County's budget, Comprehensive Annual Financial Report (CAFR) and Popular Annual Financial Report (PAFR) are all available on the County website, www.co.sanmateo.ca.us. Residents can look up the assessed value of their property or pay their property taxes online. Board meetings (including budget hearings) air on Peninsula TV, a local access cable channel operated by a consortium of public agencies.

County management is responsible for establishing and maintaining a comprehensive internal control framework designed to ensure that the assets of the County are protected from loss, theft or misuse, and that accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control framework is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the likely benefits and (2) the evaluation of

costs and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework. We believe that the County's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary Controls

The County maintains budgetary controls with the objective of ensuring compliance with legal provisions embodied in the annual appropriated budget approved by the County's Board of Supervisors. Activities of the General Fund, certain special revenue, certain debt service and capital projects funds are included in the annual appropriated budget. The legal level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amounts) is maintained at the object level (i.e., Salaries & Benefits, Services & Supplies) for all budget units within the County. Any amendments or transfers of appropriations between object levels or between budget units within any department or fund must be authorized by the County Manager's office and approved by the Board of Supervisors. The Board of Supervisors must approve supplemental appropriations normally financed by unanticipated revenues during the year. Pursuant to Board Resolution, the County Manager is authorized to approve transfers and revision of appropriations under \$50,000 within a single budget unit as deemed necessary and appropriate. Any appropriations remaining in the department at the end of the fiscal year automatically lapse and are transferred to fund balance. The year-end fund balance, along with projected revenues, becomes available for appropriation the following year. An encumbrance accounting system is used to facilitate effective budgetary control. An encumbrance reserves a portion of an appropriation at the time a commitment is made to acquire goods or services. Open encumbrances are reported as reservations of fund balances at fiscal year-end and are re-appropriated as part of the following year's budget.

Debt Administration

The County has capital lease obligations under lease/purchase agreements for various County buildings and other properties. Recent lease/purchase agreements have been made with the JPFA, a joint exercise of powers agency organized in May 1993 (composed of the County of San Mateo and the Community Development Commission for the County of San Mateo) to assist the County in the financing of public capital improvements. Total outstanding obligations in the form of lease revenue bonds (backed by a pledge of revenues consisting of base rental payments payable by the County under the lease/purchase agreements) at June 30, 2003 were \$292,189,000.

Cash Management

The County sponsors an investment pool that is managed by the County Treasurer for the purpose of earning interest through investments. Cash and investments for most County activities are included in the investment pool. Cash and investments managed separately from the investment pool include those of the SamCERA and JPFA. The investment pool also includes both voluntary and involuntary participation from entities external to the County reporting entity. State of California statutes require certain government entities and special districts to maintain their surplus cash with the County Treasurer.

California Government Code statutes and the County's investment policy govern the County's investment pool activity. The County's investment policy has the following objectives: safety, liquidity, yield and public trust. Those statutes and policy authorize the County Treasurer to invest in securities issued by the U.S. Government Treasury and its Agencies, certain corporate bonds and notes, bankers' acceptances, certificates of deposit, commercial paper, repurchase agreements, and the State of California Local Agency Investment Fund (LAIF) and securities lending transactions. A Treasury Oversight Committee monitors and reviews the management of public funds maintained in the investment pool. The County pool investments returned an average gross yield of 3.65% during the fiscal year ended June 30, 2003. This compares with the average yield of 4.02% earned during the previous fiscal year.

Pension Trust Fund Operations

The County participates in and contributes to a defined benefit pension plan that provides retirement, disability, and death benefits for substantially all employees of the County. Contributions are made to SamCERA, which is reported as a Pension Trust Fund in the County's financial statements.

The SamCERA Pension Trust Fund is governed by the Board of Retirement, and investments are managed by investment management advisory firms. The investment policy of the Board of Retirement is to pursue an investment strategy which (1) reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes and (2) adopts an asset allocation plan to guide the structure of the investment portfolio. The investment objective of the Board of Retirement, among others, is to generate portfolio returns that, over the long-term, exceed the rate of inflation by not less than 3.25% by generating market returns within each asset class.

SamCERA's latest asset allocation plan (as revised April 2000) specified an asset allocation target of 65% equities, 29% fixed income securities and 6% real estate. At June 30, 2003, actual asset allocation was 65% equities, 29% fixed income securities and 6% real estate. For FY2002-03, SamCERA's total plan return was 3.86% compared to a negative 3.3% for the

previous fiscal year. The positive total plan return may be attributed to SamCERA's fixed income and real estate portfolios, which provided positive returns throughout the fiscal year. The equity portfolio had another challenging year, but benefited from a strong market rally in the fourth quarter of the fiscal year.

Major changes occurred in June 2002 as the estimated aggregate County contribution rate increased from approximately 11.7% to approximately 18.7% for the new fiscal year. 64% of this increase is attributable to the granting of new retirement benefits to County employees in nine contributory pension plans, 19% is attributable to three-years of declining investment markets, and 17% is attributable to actuarial assumption changes such as improved life expectancy. The cumulative impact of these three factors caused the Funding Ratio of Actuarial Assets to Accrued Actuarial Liabilities to decline from 98.6% to 85.3% and caused the Unfunded Actuarial Accrued Liability (UAAL) to increase from \$19.5 million to \$243.7 million. The Board of Retirement adopted a new twenty-year schedule for the amortization of the UAAL, with full funding slated for June 30, 2022. As of June 30, 2003, the funding ratio of actuarial assets to accrued actuarial liabilities declined further to 76% and the UAAL increased further to \$427.6 million due to the continued effects of the above factors.

A Comprehensive Annual Financial Report is available from SamCERA at 100 Marine Parkway, Suite 125, Redwood Shores, California 94065 or via www.samcera.org.

Risk Management

The County maintains a comprehensive risk management program administered by a full-time professional risk manager and staff. The County is self-insured for property damage, general liability, workers' compensation, automobile liability, vision, dental and long-term disability insurance. Commercial insurance companies provide excess insurance coverage for property damage, earthquake, flood damage, general liability, workers' compensation, automobile liability and medical malpractice claims.

The County currently reports its risk management activities in its Workers' Compensation Insurance, Long-Term Disability, and Personal Injury and Property Damage Trust Funds (Internal Service Funds). A separate Employee Benefits Trust Fund is maintained to cover self-insured employee benefits programs.

The County's Risk Management office administers claims for the various programs, provides loss prevention services, and minimizes risks through various risk control strategies. County management believes that assets of the self-insurance funds together with the commercial insurance companies' coverage will be adequate to meet insurance claims as they come due.

In accordance with the California Government Code Section 24156, the County maintains a Program of Self-Insurance in lieu of official bonds for certain elective County officers (Assessor-County Clerk-Recorder, Coroner, District Attorney, Sheriff and Members of the Board of Supervisors) and a blanket bond of \$1.5 million each for the Treasurer-Tax Collector and the Controller.

OTHER INFORMATION

Independent Audit

The Charter of the County (Article VI Section 603) provides that the Board of Supervisors shall have an annual audit made by a certified public accountant and the auditor shall report on the County's financial transactions and records and the effectiveness of internal controls. The Board of Supervisors in consultation with the Grand Jury selected the firm of Macias, Gini & Company LLP to perform the FY 2002-03 audit. In addition to meeting the requirements set forth in State statutes, the audit was also designed to meet the requirements of (1) the Federal Single Audit Amendments of 1996, (2) the related U.S. Office of Management and Budget's Circular A-133, (3) auditing standards generally accepted in the United States of America, and (4) the standards set forth in the General Accounting Office's *Government Auditing Standards* as used by the auditors in conducting the engagement. The independent auditor's report on the basic financial statements as well as combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports on internal controls and compliance with applicable laws, regulations, contracts and grant agreements can be found in a separately issued single audit report.

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its comprehensive annual financial report for the fiscal year ended June 30, 2002. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both accounting principles generally accepted in the United States and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

I wish to extend a special thanks to all the departments and agencies that contributed financial information to this report. It is my goal to publish financial information on a schedule that is more helpful to policy leaders and County managers. Without the cooperation of these professionals it would not be possible. I also wish to express my appreciation to the staff of the Controller's Office, especially Bob Adler, Lorna Uy, Tat-Ling Chow, Carol Marks, Susan Tumang, Irene Levintov, Rene Orbeta, Celia Bautista, Alana Pijuan-Tugadi and Jacqueline Chen-Lee whose hard work, professionalism and dedication are responsible for the preparation of this report. I wish to also thank the Grand Jury Auditors, Macias, Gini & Company LLP, and specifically Kevin O'Connell, Cynthia Pon, Linda Hurley, Kendra Gorrie, Annie Louie and Guian DelaCueva, for their extra efforts and assistance. Most importantly, I would like to thank the Board of Supervisors, the County Manager's Office and all County departments for their continued efforts in planning and conducting the County's financial operations in a responsible and progressive manner.

Respectfully submitted,

Tom Huening, CPA Controller

To the Grand Jury and the Board of Supervisors of the County of San Mateo Redwood City, California

Independent Auditor's Report

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of San Mateo, California (the County), as of and for the year ended June 30, 2003, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the San Mateo Housing Authority and the San Mateo Employees' Retirement Association, which represent the following percentages of assets and revenues/additions as of and for the fiscal year ended June 30, 2003:

| Opinion Unit | Assets | Additions |
|--|--------|-----------|
| Business-type Activities | 30.6% | 38.5% |
| Each Major Enterprise Fund - San Mateo Housing Authority | 100.0% | 100.0% |
| Aggregate Remaining Fund Information | 33.3% | 3.5% |

Those financial statements were audited by other auditors whose reports thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the San Mateo County Housing Authority and the San Mateo Employees' Retirement Association, is based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of San Mateo, California, as of June 30, 2003, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2 to the basic financial statements, the County adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 40, Deposit and Investment Risk Disclosures – an amendment of GASB Statement No. 3.

In accordance with Government Auditing Standards, we have also issued our report dated December 12, 2003, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

The management's discussion and analysis, infrastructure assets reported using the modified approach, the budgetary comparison schedule – general fund and the schedule of funding progress are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted primarily of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and do not express an opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, combining and individual fund statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund statements and schedules have been subjected to the auditing procedures applied by us and other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of the other auditors, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Management's Discussion and Analysis

COUNTY OF SAN MATEO Management's Discussion and Analysis

Required Supplementary Information

This section of the County of San Mateo's (County's) comprehensive annual financial report presents our discussion and analysis of the County's financial performance during the fiscal year ended June 30, 2003. Please read it in conjunction with the transmittal letter at the front of this report and the County's basic financial statements following this section. *All dollar amounts are expressed in thousands unless otherwise indicated.*

FINANCIAL HIGHLIGHTS

- The assets of the County exceeded its liabilities at the close of the 2002-2003 fiscal year by \$612,499 (net assets). Of this amount, \$204,671 (unrestricted net assets) may be used to meet the County's ongoing obligations to citizens and creditors, \$87,257 is restricted for specific purpose (restricted net assets), and \$320,571 is invested in capital assets, net of related debt.
- The County's total net assets increased by \$29,878. Governmental activities increased the County's net assets by \$20,789 and business-type activities by \$9,089.
- As of June 30, 2003, the County's governmental funds reported combined ending fund balances of \$370,618, a decrease of \$4,107 in comparison with the prior year. Approximately 78% of this total amount, \$289,686, are *available* to meet the County's current and future needs (*unreserved fund balance*).
- At the end of the fiscal year, unreserved fund balance for the General Fund was \$222,896, or 39% of total General Fund expenditures.
- The County's total long-term debt decreased by \$6,100 in comparison with the prior year. The decrease resulted primarily from the retirement of lease revenue bonds in an amount of \$5,062.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components: 1) **Government-wide** financial statements, 2) **Fund** financial statements, and 3) **Notes** to the basic financial statements. Required Supplementary Information is included in addition to the basic financial statements.

Government-wide Financial Statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the County's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The *statement of activities* presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in a future fiscal period (e.g., uncollected taxes and earned but unused vacation leave).

Both of these government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or in part a portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government, public protection, public ways and facilities, health and sanitation, public assistance, education and recreation. The business-type activities of the County include the San Mateo Medical Center (SMMC) that incorporated the Hospital and Community Clinics activities after the two merged operations in July 2002, Airports, Coyote Point Marina, and Housing Authority operations.

Component units are included in our basic financial statements and consist of legally separate entities for which the County is financially accountable and that have substantially the same board as the County or provide services entirely to the County. Examples are: the San Mateo Joint Powers Financing Authority (JPFA), San Mateo County Employees' Retirement Association (SamCERA), San Mateo County Housing Authority, and In-Home Support Services (IHSS) Public Authority. First 5 San Mateo County (First 5), formerly known as Children and Families First Commission, is reported as a discretely presented component unit because First 5 has some financial accountability to the County Board.

The government-wide financial statements can be found on pages 15-17 of this report.

Management's Discussion and Analysis (Continued)

Required Supplementary Information

Fund Financial Statements are groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: *governmental funds*, *proprietary funds*, and *fiduciary funds*.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains 20 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund and JPFA. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds are provided in the form of *combining statements* elsewhere in this report.

The governmental fund financial statements can be found on pages 18-21 of this report.

Proprietary funds are maintained in two ways. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for the SMMC, Airport, Coyote Point Marina and Housing Authority operations. *Internal service funds* are used to accumulate and allocate costs internally among the County's various functions. The County uses internal service funds to account for its workers' compensation insurance, long-term disability trust, employee benefits trust, personal injury and property damage, fleet maintenance and Tower Road construction functions. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The SMMC and Housing Authority operations are considered to be major funds of the County. The County's six internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for each of these nonmajor enterprise and internal service funds are provided in the form of *combining statements* elsewhere in this report.

The proprietary fund financial statements can be found on pages 22-25 of this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The fiduciary fund financial statements can be found on pages 26-27 of this report.

Notes to the Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes can be found on pages 28-55 of this report.

Required Supplementary Information is presented concerning the County's General Fund budgetary schedule, infrastructure assets reported using the modified approach, and the SamCERA pension schedules. The County adopts an annual appropriated budget for its General Fund. A budgetary comparison schedule has been provided for the General Fund to demonstrate compliance with this budget. The SamCERA pension schedules have been provided to present SamCERA's progress in funding its obligation to provide pension benefits to County employees.

Required supplementary information can be found on pages 56-67 of this report.

Management's Discussion and Analysis (Continued)

Required Supplementary Information

Combining and individual fund statements and schedules referred to earlier provide information for nonmajor governmental funds, nonmajor enterprise funds, internal service funds, and fiduciary funds and are presented immediately following the required supplementary information.

Combining and individual fund statements and schedules can be found on pages 68-114 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may over time serve as a useful indicator of the County's financial position. County assets exceeded liabilities by \$612,499 at June 30, 2003.

County's Net Assets

| | Govern | nmenta vities | al | Business-type Activities | | | | | | | | |

| Total net assets | \$ 582,489 | \$ | 596,889 | \$ | 30,010 | \$ | 23,998 | \$ | 612,499 | \$ | 620,887 | (1.35) |

The changes in the County's net assets are summarized as follows:

- The County's total assets increased by \$85,527 (or 8%). The County received a \$62,616 cash collateral through its securities lending activity. This activity significantly increases the County's assets this year.
- The County's total liabilities increased by \$93,915 or (or 19%). Two major factors account for this increase:
 - With the \$62,616 cash collateral obtained through its securities lending activity, the County's liability increased correspondingly by the same amount.
 - The long-term liabilities increased by \$46,565. The increase is primarily due to the change in the method of computing the compensated absences liability. In prior years, the County treated the retirees' sick leave healthcare conversion benefits on a pay-as-you-go-basis and did not include retirees in its compensated absences liability computation. This year the County included the retirees' sick leave healthcare conversion benefits in its calculation of compensated absences liability.

The composition of the County's net assets can be summarized as follows:

- A portion of the County's net assets, 33%, is unrestricted net assets that may be used to meet the County's ongoing obligations to citizens and creditors.
- Another 52% of the County's net assets reflect its investment in capital assets (e.g., land, buildings and equipment), less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.
- The remaining portion of the County's net assets, 15%, represents resources that are subject to external restrictions on how they may be used.

Management's Discussion and Analysis (Continued)

Required Supplementary Information

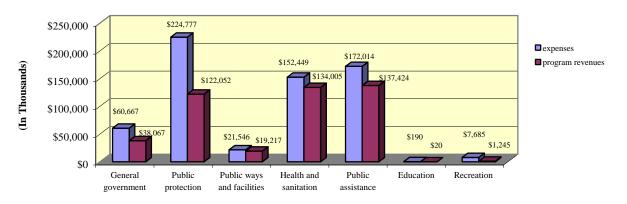

The County's net assets have increased by \$29,878 during the current fiscal year. This growth largely reflects rate increases in operating and capital grants, and investment earnings.

Governmental activities. Governmental activities increased the County's net assets by \$20,789, thereby accounting for 70% of the total growth in the net assets of the County. Reclassifications were made to the 2002 revenues and expenses to conform to the current year's presentation.

Expenses and Program Revenues – Governmental Activities

Management's Discussion and Analysis (Continued)

Required Supplementary Information

Key elements of the increase/decrease in revenues for governmental activities are as follows:

- Charges for services increased by \$7,949 or 8%. The majority of this increase was caused by the following:
 - Public Works performed a higher level of reimbursable work to other County departments and other governmental agencies, resulting in revenue increase of \$2,770.
 - The recording fees and supplemental tax administrative fees increased by \$1,304 during the current fiscal year. The
 increase is attributed to rising home sales and supplemental assessment activity resulting from low mortgage interest
 rates
 - A new contract to provide security services between the Sheriff's Office and CalTrain and San Mateo County Transit resulted in revenue increase of \$863.
 - Document recording fees increased by \$475 due to an increase in construction and refinancing of homes in the County.
 - Other immaterial fluctuations account for the balance of the change.
- Property taxes increased by \$1,703 or 1%. This increase was primarily due to increased home sales and higher assessments.
- Motor vehicle in-lieu taxes increased by \$3,490 or 8% in consequence of increased number of identification renewals for off-highway vehicles.
- Unrestricted interest and investment earnings increased by \$705 or 3%. This increase is mainly due to increases in investment income because of higher interest earnings from the County's investment pool.
- Miscellaneous revenues decreased by \$2,684 or 16%. This decrease was mainly due to the following:
 - The Youth and Families Services and Public Health Services realized a lesser amount of revenues, \$1,043 and \$448 respectively, from miscellaneous reimbursements this year.
 - In FY 2001-02, the Board authorized a one-time unemployment insurance premium refund of \$1,500 to departments eligible for receiving the excess contribution. Out of the \$1,500, the General Fund departments received a total of \$1,066 refund. As a result, the insurance recoveries and refunds of this year were much lower, showing a net decrease of \$1,053.

Key elements of the increase/decrease in expenses for governmental activities are as follows:

- General government expenses decreased by \$4,273 or 7%. The majority of this decrease was caused by the following:
 - Spending on the e-Government project that provides County services over the web decreased by \$2,140. Higher spending was incurred in the prior year as the project was still under development. The Information Services Department completed the e-Government project in the current year.
 - In FY 2001-02, the County dissolved the East Palo Alto County Waterworks District (EPACWD). The ownership of the EPACWD was transferred to the cities of East Palo Alto and Menlo Park, and the fund balance of the EPACWD was distributed between these two cities at a ratio of 90% and 10%, respectively. The transfer of fund resources resulted in a \$1,953 disbursement in the prior fiscal year.
 - In the current fiscal year, the Election Office conducted only one major election versus two in the prior year. This resulted in a \$677 cost savings of services and supplies in the Election Office.
- Public protection expenses increased by \$13,808 or 7%. Key factors accounting for this increase were as follows:
 - Increase in salaries and benefits as negotiated for deputies and staff as well as actions taken to address security concerns resulted in increased spending of \$3,253 in the Sheriff's Office.
 - Negotiated increases in salaries and benefits plus inflationary increases in various services and supplies attributed to increased spending of \$3,129 in the Probation Department.
 - Higher public safety services spending in various departments/divisions, including fire protection, county district attorney, county coroner, county corrections, planning and building, accounted for the remaining increases.

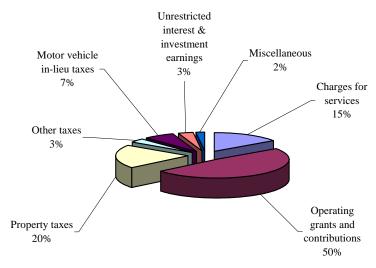

Management's Discussion and Analysis (Continued)

Required Supplementary Information

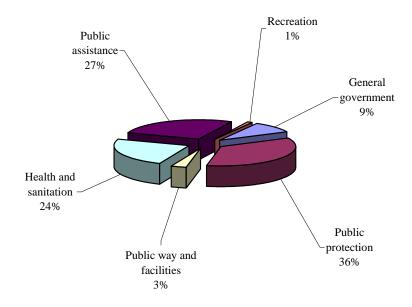

- Public way and facilities expenses decreased by \$3,379 or 14%. Elements contributed to this decrease were as follows:
 - The majority of this decrease was caused by reduced activities for public ways and facilities in the Road Fund. The overall reduced spending aggregated to \$2,131 including \$1,788 for reconstruction/resurfacing and other repair work on roads, \$209 for professional and contractual service costs, \$23 for equipment and facilities maintenance, and \$107 for various services and supplies outlay.
 - Other immaterial decreases in other special revenue funds administrated by the Public Works Department accounted for the balance of the change.
- Public assistance expenses increased by \$4,150 or 2%. The majority of this increase was caused by higher costs for foster care placement, general assistance, interim aid, CALWORKs, Welfare to Work training, and Proposition 36 substance abuse treatment.

For the most part, increases in expenses closely paralleled inflation and growth in the demand for services.

Revenues by Source - Governmental Activities

Expenses by Function/Program – Governmental Activities

Management's Discussion and Analysis (Continued)

Required Supplementary Information

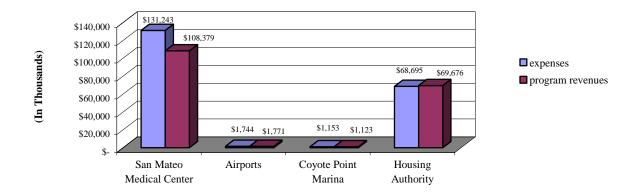

Key elements of the increases in transfers out for governmental activities are as follows:

During the current fiscal year, transfers out increased by \$17,178 or 140%. On account of reduced funding from the federal and State governments, the County's General Fund provided an additional \$14,119 subvention to the SMMC compared to the prior fiscal year.

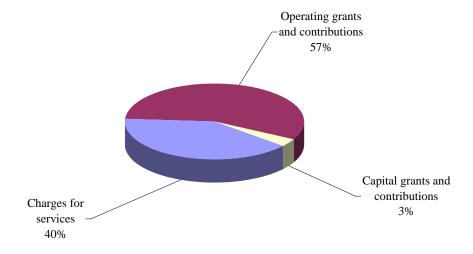

Business-type activities. Business-type activities increased the County's net assets by \$9,089. Key elements accounting for the increases or decreases in revenues and expenses are as follows:

- San Mateo Medical Center. This year the SMMC's expenses decreased by \$11,156 (or 8%). The reduction is a result of
 a reorganization which reduced inter-agency revenues and expenses in the amount of \$12,100.
- Housing Authority. In the current fiscal year, operating grants and contributions received by the Housing Authority increased by \$20,400 or 42%, primarily due to 100% of housing unit rented in the Section 8 Vouchers Program. The housing assistance payments thus increased by \$19,400 or 46%, and which is the major factor accounting for the \$19,863 (or 24%) increase in the operating grants and contributions of the business-type activities.

Expenses and Program Revenues – Business-type Activities

Revenues by Source – Business-type Activities

Management's Discussion and Analysis (Continued)

Required Supplementary Information

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The general government functions are contained in the General, special sevenue, debt service, and capital projects fund. Included in these funds are the special districts governed by the Board of Supervisors. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the County's net resources available for spending at the end of the fiscal year.

As of June 30, 2003, the County's governmental funds reported combined ending fund balances of \$370,618, a decrease of \$4,107 in comparison with the prior year. Approximately 78% of this total amount or \$289,686 constitute *unreserved fund balance*, which is available to meet the County's current and future needs. The remainder of fund balance is *reserved* to indicate that it is not available for new spending because it has been committed (1) to pay debt service (\$34,505), (2) to reflect inventories and the amount due from other funds that are long-term in nature and thus do not represent available spendable resources (\$8,468), and (3) to liquidate contractual commitments (\$19,042), and (4) to pay for capital projects (\$18,917).

The General Fund is the chief operating fund of the County. At June 30, 2003, unreserved fund balance of the General Fund was \$222,896 while total fund balance reached \$239,269. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 39% of total fund expenditures, while total fund balance represents 42% of that same amount. The fund balance of the County's General Fund increased by \$15,651 during the current fiscal year.

The following provides an explanation of revenues by source that changed significantly over the prior year:

Revenues Classified by Source - General Fund

| | FY 2003 | | | FY 20 | 002 | Increase/(Decrease) | | | |
|-----------------------------------|---------------|----------|----|---------|----------|---------------------|----------|-----------|--|
| | | Percent | | | Percent | | | Percent | |
| Revenues by Source | Amount | of Total | | Amount | of Total | | Amount | of Change | |
| Taxes | \$ 155,458 | 24.45 | \$ | 153,643 | 23.85 | \$ | 1,815 | 1.18 | |
| Licenses and permits | 3,901 | 0.61 | | 3,815 | 0.59 | | 86 | 2.25 | |
| Use of money and property | 17,507 | 2.75 | | 15,093 | 2.34 | | 2,414 | 15.99 | |
| Intergovernmental | 360,540 | 56.71 | | 371,136 | 57.61 | | (10,596) | (2.86) | |
| Charges for services | 77,040 | 12.12 | | 75,898 | 11.78 | | 1,142 | 1.50 | |
| Fines, forfeitures, and penalties | 7,744 | 1.22 | | 7,939 | 1.23 | | (195) | (2.46) | |
| Other | 13,605 | 2.14 | | 16,657 | 2.59 | | (3,052) | (18.32) | |
| Total | \$ 635,795 | 100.00 | \$ | 644,181 | 100.00 | \$ | (8,386) | (1.30) | |

- Taxes increased by \$1,815 or 1%. This increase was mainly due to additional assessments by the Assessor's Office based on reappraisals of real property due to changes in ownership or completion of new construction.
- Use of money and property increased by \$2,414 or 16%. This increase is mainly due to increase in investment income because of higher interest earnings from the County's investment pool. In addition, a hiring freeze was in place for the entire fiscal year, generating additional interest income from savings from unspent appropriations.
- Intergovernmental revenues decreased by \$10,596 or 3%. The majority of the decrease was due to the following:
 - In FY 2002-03, State allocated a lesser amount of its receipt from Proposition 172, a measure that devotes ½ cent sales tax to law enforcement, to the County. Consequently, the Sheriff's Office received a \$1,985 less and the Probation Department a \$2,160 less funding from Proposition 172.
 - State funding for mental health services decreased by \$2,491. In the prior year, Mental Health received a \$3,478 state-mandated cost reimbursement compared to none this year as the State decided to defer cost reimbursement to counties.
 - Other immaterial decreases account for the balance of the change.

Management's Discussion and Analysis (Continued)

Required Supplementary Information

- Charges for Services increased by \$1,142 or 2%. The majority of this increase was accounted for as follows:
 - During the current fiscal year, the Sheriff's Office, as part of a new contract, was providing security services to CalTrain and San Mateo County Transit District, which resulted in revenue increase of \$863.
 - Document recording fees increased by \$475 due to an increase in construction and refinancing of homes and higher supplemental tax fees revenue due to increased home sales and supplemental assessment activity in the County.
- Other revenues decreased by \$3,052 or 18%. This decrease was primarily due to the following:
 - The Youth and Families Services and Public Health Services realized a lesser amount of revenues, \$1,043 and \$448 respectively, from miscellaneous reimbursements this year.
 - In FY 2001-02, the Board authorized a one-time unemployment insurance premium refund of \$1,500 to departments eligible to receiving the excess contribution. Out of the \$1,500, General Fund departments received a \$1,066 refund. As a result, the insurance recoveries and refunds of this year showed a net decrease of \$1,053.

The following provides an explanation of expenditures by function that changed significantly over the prior year:

Expenditures by Function - General Fund

| | FY 2 | 2003 | FY 2002 | | | | Decrease) | |
|-------------------------------------|---------------|----------|---------|---------|----------|----|-----------|-----------|
| | | Percent | | | Percent | | | Percent |
| Expenditures by Function | Amount | of Total | | Amount | of Total | A | Amount | of Change |
| General government | \$ 49,842 | 8.81 | \$ | 51,481 | 8.91 | \$ | (1,639) | (3.18) |
| Public protection | 208,833 | 36.91 | | 197,558 | 34.68 | | 11,275 | 5.71 |
| Health and sanitation | 127,146 | 22.47 | | 129,005 | 24.11 | | (1,859) | (1.44) |
| Public assistance | 170,225 | 30.09 | | 164,977 | 30.25 | | 5,248 | 3.18 |
| Education | 192 | 0.03 | | 197 | 0.04 | | (5) | (2.54) |

| Capital outlay | 2,337 | 0.41 | | 2,930 | 0.56 | | (593) | (20.24) |
| Debt service - principal retirement | 143 | 0.03 | | 684 | 0.12 | | (541) | (79.09) |
| Debt service - interest charges | 15 | 0.00 | | 42 | 0.01 | | (27) | (64.29) |
| Total | \$ 565,751 | 100.00 | \$ | 554,112 | 100.00 | \$ | 11,639 | 2.10 |

- General government expenditures decreased by \$1,639 or 3%. The decrease was primarily due to a \$2,140 decreased spending on the e-Government project that provides County services over the web. The Information Services Department completed the e-Government project in the current year. Higher spending was incurred in the prior year as the project was still under development.
- Public protection expenditures increased by \$11,275 or 6%. Key factors accounting for this increase were as follows:
 - Increase in salaries and benefits for deputies and staff as negotiated as well as actions taken to address security concerns resulted in increased spending of \$3,253 in the Sheriff's Office.
 - Negotiated increases in salaries and benefits plus inflationary increases in various services and supplies attributed to increased spending of \$3,129 in the Probation Department.
 - Higher public safety services spending in various departments/divisions, including fire protection, county district attorney, county coroner, county corrections, planning and building accounted for the remaining increases.
- Health and sanitary expenditures decreased by \$1,859 or 1%. In FY 2001-02, an incentive payment of \$1,540 was made out of a Child Welfare Program administered by the General Fund to promote health and sanitary awareness for minors. This transaction accounted for an 83% decrease in health and sanitary expenditures this year.
- Public assistance expenditures increased by \$5,248 or 3%. The majority of this increase was caused by higher costs for foster care placement, general assistance, interim aid, CALWORKs, Welfare to Work training, and Proposition 36 substance abuse treatment.
- Debt service expenditures decreased by \$568 or 78%. The reduction in debt payments was principally due to the final payment of a long-term capital lease liability for the upgrade of the County's telephone system infrastructure in the prior year.

Management's Discussion and Analysis (Continued)

Required Supplementary Information

Proprietary funds. The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets (deficits) amounted to (\$16,681) for the SMMC and \$1,494 for the Housing Authority at June 30, 2003. The total increases in net assets for these funds were \$6,341 and \$1,561. Factors concerning the finances of these major funds have already been addressed in the discussion of the County's business-type activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

The County's final budget for the fiscal year 2003 exceeded its original budget by \$11,657 or 1.36%. The key elements of the difference between the original and final budget are listed below:

- \$7,510 unanticipated revenues from federal and State grants applied at different times for the Disproportionate Share Hospital Payments program (\$3,289), Sheriff's Office records management system (\$2,381), various aging programs (\$413), substance abuse and mental health services administration (\$337), AIDS program (\$297), child support incentive program (\$250), pest detection program (\$244), countywide emergency preparedness project (\$235), and other programs (\$64).
- * \$3,658 unanticipated revenues from the micro-graphic conversion funding (\$1,587), election service charges (\$796), document recording fees (\$631), legal counseling service charges (\$190), rental charges for various facilities leased to the courts \$(156), supplemental tax administrative fees (\$133), and other services (\$165).
- \$972 donations from the Peninsula Community Foundation and First 5 for the children's health initiative programs (\$772), Robert Wood Johnson Foundation for the health education (\$110), Lucille Packard Foundation for the children's health program (\$67), and San Mateo County Parks and Recreation Foundation for the parks and recreation activities (\$23).
- \$616 additional funding from the Governor's 25% discretionary fund.
- \$331 contribution from the non-General Fund reserves to cover additional contract costs and lease payments.
- \$1,430 reduction in appropriation. The reduction included \$355 adjustment to the anticipated revenue from Proposition 172, \$1,000 transfer of appropriation to the SMMC as financial assistance, and \$75 to the Parks Acquisition capital project fund for land acquisition.

During the year, General Fund revenues and expenditures were less than budgetary estimates. Actual revenues were \$9,710 lower than estimates. While tax as well as use of money and property revenues exceeded their estimates, intergovernmental revenues (federal and State revenues) came in lower than estimates. Actual expenditures were \$268,911 lower than the final budgetary appropriations. The bulk of these cost savings resulted from the unspent appropriations of (a) \$117,982 in contingency reserves, (b) \$39,089 in salaries and benefits due to the hiring freeze, (c) \$67,712 in services & supplies and (d) \$37,329 in other charges for government programs including general government, public protection, heath and sanitation, public assistance, and recreation. These savings eliminated the need to draw upon existing fund balance.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets. The County's investment in capital assets for its governmental and business-type activities as of June 30, 2003 amounted to \$602,079 (net of accumulated depreciation). This investment in capital assets includes land and easements, infrastructure, construction in progress, structures and improvements, and equipment. The total increase in the County's investment in capital assets for the current period was 5% (a 6% increase for governmental activities and a 3% decrease for business-type activities).

County's Capital Assets (net of depreciation)

| | Govern Acti | nmenta vities | al | Business-type Activities | | | | Total | | | | |
|---------------------------|----------------|------------------|---------|-----------------------------|--------|----|--------|-------|---------|----|---------|--------------|

Management's Discussion and Analysis (Continued)

Required Supplementary Information

Major capital asset transactions/events during the current fiscal year included the following:

- During the year, the Health Center construction that was administered by the JPFA was completed and fully occupied as
 of December 31, 2002. Construction in progress in the amount of \$40,452 was transferred to structures and
 improvements.
- Construction in progress for governmental activities decreased by \$46,471 or 52%. Additional costs were incurred for various projects in progress amounting to \$35,639. During the year, the Health Center construction was completed as discussed above. In addition, two projects under the 2001 Capital Projects, namely, forensics laboratory and mutual aid communications system, were completed in January 2003 and their costs of \$17,596 and \$9,516 were transferred to structures and improvements.
- The commitments outstanding as of June 30, 2003 amounted to \$17,049 for the Colma Creek Flood Control System and \$1,963 for the Sheriff's radio system.

The County's infrastructure assets are recorded at historical cost in the government-wide financial statements as required by GASB Statement No. 34. The County has elected to use the modified approach for infrastructure to report its pavement subsystem of the road network of \$67,237. The infrastructure assets reported under the modified approach are not subject to depreciation per GASB Statement No. 34. The remaining networks and other road network subsystems use the depreciation method of reporting. These networks and subsystems are being evaluated for the appropriateness and feasibility of conversion to the modified approach in future periods.

The County manages its maintained pavement subsystem of the road network using the Metropolitan Transportation Commission's Pavement Management Program (Program). The Program establishes a Pavement Condition Index (PCI) on a scale from zero to one hundred (0-100) for each road segment being maintained by the Department of Public Works. The Program has defined the pavement of roads with PCI of 40 or higher to be in a "Fair" or better condition and roads with PCI of 55 or higher to be in "Good" or better condition. The County's policy is to maintain at least 75% of its primary maintained road system (roads with structural sections) at a PCI of 55 or higher and the secondary maintained road subsystem (roads without structural sections) at a PCI of 40 or higher. Condition assessments are determined every three years.

At June 30, 2003, the County's maintained pavement subsystem was rated at a PCI of 76 on the average for the primary roads and 54 for secondary roads.

For the year ended June 30, 2003, the actual maintenance and preservation costs of \$6,615 were more than the estimated amount by \$215 or 3%.

Additional information on the County's capital assets can be found in Note 7 on pages 44-45 of this report.

Long-term debt. At June 30, 2003, the County had total debt outstanding of \$294,275. Of this amount, \$277,234 comprised of lease revenue bonds, \$14,955 of certificates of participation, \$1,838 of notes payable, and \$248 of capital lease obligations.

County's Outstanding Debt Lease Revenue Bonds, Certificates of Participation, Notes Payable and Capital Lease Obligations

Management's Discussion and Analysis (Continued)

Required Supplementary Information

During the current fiscal year, the County's total debt decreased by \$6,100 (or 2%). The decrease was due to retirement of debt as scheduled in the financing agreements. The County's Ordinance No. 3773 limits the County annual debt service to 4% of the average annual County budget for the current and the preceding four fiscal years. This fiscal year's debt service limit is \$38,019. The amount of debt subject to the debt service limit is \$19,969, which is \$18,050 less than authorized.

Additional information on the County's long-term debt can be found in Note 9 on page 47-50 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

- San Mateo County faces a third consecutive year of recession. The "Dot.Com Bust", terrorism, war and recently the Asian SARS health scare have taken their toll on the County's economy. Since 2001, the County has lost 12,800 jobs. The unemployment rate has tripled to 5.2%. The County's largest employer, United Airlines, has reduced its workforce at San Francisco International Airport (SFO) by 4,000 jobs and filed for bankruptcy protection.
- Most economists and business leaders are not predicting major improvement in the local economy next year. Some, however, are predicting a bottoming out of the downturn. Under these circumstances, the County must maximize all local revenue sources, utilize its reserves, increase productivity and reduce services.
- Expenditures of the recommended budget for FY 2003-04 are \$1.2 billion, representing a 2.4% decrease from the prior year. Expenditures of the recommended budget for FY 2004-05 are \$1.15 billion, a further decrease of 4%. The FY 2003-04 recommended budget expenditures include \$22.7 million negotiated increases for salaries, retirement benefits (\$23.5 million) and employee health and dental costs (\$4.2 million).
- Revenues of the recommended budget for FY 2003-04 anticipate a loss of \$35.6 million in inter-governmental revenue that will be partially offset by a \$7 million increase in taxes, \$7.8 million in charges for services, \$1.1 million in licenses, permits and franchise fees, and \$1.1 million in use of money and property. For FY 2003-04, inter-governmental revenue represents 43% of total County revenue. The County receives revenue from the State for over 50 State/County programs. State revenue should reimburse the County for all costs including both increased costs of services and caseload growth. When the State reduces payments, the County is required to bear a greater portion of program costs or reduce services. For example, payments to the SMMC have remained fixed for 4 years while the cost of providing services has risen.
- Pursuant to the Board's direction, departments were asked to reduce their Net County Costs (NCC) by 8% to 20% for the FY 2003-04 Recommended Budget. Where feasible, departments have raised fees to fully recover costs for services. Charges for services in the FY 2003-04 Recommended Budget will go up by \$7.8 million. However, in most departments revenue from higher fees is not sufficient to meet NCC targets. As a result, the Recommended Budget proposes expenditure reductions in many departments. These reductions are in addition to those made last year to balance the budget. Every effort has been made to maintain critical health and safety programs as well as "safety net" services for our most vulnerable populations. Most prevention services have been maintained at current levels. Overall a net of 103 positions will be eliminated. Depending on the number of retirements this summer, as many as 30 employees could be laid off.
- In December 2003, the State repealed the vehicle license fee that provides financial support to counties and local governments. The County is expecting a loss in revenues of \$45 million that will affect various County programs. At this time, the State has not identified or approved any financial relief to offset this loss.

All of these factors were considered in preparing the County's budget for FY 2003-04.

During the current fiscal year, unreserved fund balance in the General Fund increased to \$222,896. The County has appropriated the full amount of spending in the 2004 fiscal year budget.

REQUEST FOR INFORMATION

This financial report is designed to provide a general overview of the County's finances for all those with an interest in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Controller, 555 County Center, Redwood City, CA 94063. This entire report is available online at www.co.sanmateo.ca.us.

Reconciliation of the Governmental Funds Balance Sheet to the Government-wide Statement of Net Assets - Governmental Activities June 30, 2003

(Dollars in Thousands)

| Fund balances - total governmental funds (page 18) | \$ 370,618 |
|---|---------------|
| Amounts reported for governmental activities in the | |
| statement of net assets are different because: | |
| Deferred charges in governmental activities are not financial resources and, | |
| therefore, are not reported in the governmental funds. | 659 |
| Capital assets used in governmental activities are not financial resources | |
| and, therefore, are not reported in the governmental funds. | 556,731 |
| Other long-term assets are not available to pay for current-period expenditures | |
| and, therefore, are deferred in the governmental funds. | 33,282 |
| Internal service funds are used by management to charge the costs of | |
| management of fleet maintenance, tower road construction, worker's | |
| compensation, long-term disability, employee benefits, and personal injury | |
| and property damage to individual funds. The assets and liabilities are | |
| included in governmental activities in the statement of net assets. | 22 |
| Interest payable on long-term debt does not require the use of current | |
| financial resources and, therefore, is not accrued as a liability | |
| in the governmental funds. | (6,654) |
| Long-term liabilities, including bonds payable, are not due and payable | |
| in the current period and, therefore, are not reported in the governmental | |
| funds. | |
| Lease revenue bonds, net of unamortized discount of \$137 (277,234) | |
| Certificates of participation (14,955) | |
| Notes payable (315) | |
| Capital leases (131) | |
| Compensated absences (79,194) | |
| State settlement (340) | (372,169) |
| Net assets of governmental activities (page 15) | \$ 582,489 |

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Government-wide Statement of Activities - Governmental Activities For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

| Net change in fund balances- total governmental funds (page 20) | | \$ (4,107) |
|--|----------|---------------|
| Amounts reported for governmental activities in the statement of activities are different because: | | |
| Governmental funds report capital outlay as expenditures. However, in | | |
| the statement of activities, the cost of those assets is allocated over | | |
| their estimated useful lives and reported as depreciation expense. | | |
| Expenditures for general capital assets and infrastructure. | 44,105 | |
| The net effect of various miscellaneous transactions involving capital assets | | |
| such as sales, retirements, trade-ins, and donations. | 455 | |
| Less current year depreciation | (12,094) | 32,466 |
| Governmental fund revenues deferred in prior year due to unavailability were | | |
| received in the current year but already booked in the statement of | | |
| activities last year. | | (2,775) |
| Repayment of debt principal and settlement claims are expenditures in the governmental | | |
| funds, but the repayment reduces long-term liabilities in the statement of net assets. | | |
| Principal repayments: | | |
| Lease revenue bonds | 4,902 | |
| Certificate of participation | 220 | |
| Notes payable | 38 | |
| Capital leases | 120 | |
| Payment of accreted interest on capital accretion bonds | 623 | |
| Repayment to a settlement claim with State | 114 | 6,017 |
| Some expenses reported in the statement of activities do not require the | | |
| use of current financial resources and, therefore, are not reported as | | |
| expenditures in governmental funds. | | |
| Amortization of bond issuance costs | (24) | |
| Amortization of bond discount | (5) | |
| Change in accrued interest payable | 93 | |
| Accretion of capital appreciation bonds | (458) | |
| Change in compensated absences | (9,463) | (9,857) |
| Internal service funds are used by management to charge the costs of | | |
| certain activities to individual funds. The net expenses of certain activities | | |
| of the internal service funds is reported with governmental activities. | | (955) |
| Change in net assets of governmental activities (page 17) | | \$ 20,789 |

Basic Financial Statements -

Notes to the Basic Financial Statements

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

NOTE 1 – THE FINANCIAL REPORTING ENTITY

(a) Reporting Entity

The County of San Mateo, California (County), a Charter County established by an Act of the State Legislature in 1856, is a legal subdivision of the State of California charged with governmental powers. The County's powers are exercised through a Board of Supervisors (Board), which is the governing body of the County. The Board is responsible for the legislative and executive control of the County. The County provides various services on a countywide basis including law and justice, education, detention, social, health, hospital, fire protection, road construction, road maintenance, transportation, park and recreation facilities, elections and records, communications, planning, zoning, and tax collection.

The governmental reporting entity consists of the County (Primary Government) and its component units. Component units are legally separate organizations for which the Board is financially accountable or other organizations whose nature and significant relationship with the County are such that exclusion would cause the County's financial statements to be misleading or incomplete. Financial accountability is defined as the appointment of a voting majority of the component unit's board, and (i) either the County's ability to impose its will on the organization or (ii) there is potential for the organization to provide a financial benefit to or impose a financial burden on the County.

The basic financial statements include both blended and discretely presented component units. The blended component units are, although legally separate entities, in substance part of the County's operations and, therefore, data from these units are combined with data of the primary government. The discretely presented component unit, on the other hand, is reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the government.

For financial reporting purposes, the County's basic financial statements include all financial activities that are controlled by or are dependent upon actions taken by the County's Board. The financial statements of the individual component units may be obtained by writing to the County of San Mateo, Controller's Office, 555 County Center, 4th Floor, Redwood City, California 94063.

(b) Blended Component Units

San Mateo Joint Powers Financing Authority

The San Mateo County Joint Powers Financing Authority (JPFA) is a joint exercise of powers agency organized under the laws of the State of California by agreements dated May 15, 1993 and entered into by the County. The JPFA was formed to assist the County in the financing of public capital improvements.

The JPFA and the County have a financial and operational relationship which requires that the JPFA's financial statements be blended into the County's financial statements. A five-member board appointed by the San Mateo County Board of Supervisors determines the JPFA's policies. The JPFA has no employees and all staff work is done by the County staff or by consultants to the JPFA.

San Mateo County Employees' Retirement Association

The financial activities of the County's pension plan are reported in the pension trust fund of the basic financial statements because it is an integral part of the County.

A nine-member Retirement Board controls the San Mateo County Employees' Retirement Association (SamCERA). The Retirement Board is comprised of the County Treasurer, two general members of SamCERA, four members appointed by the County Board of Supervisors, one member from SamCERA's safety membership and one member from the retired membership. The Retirement Board has administrative and fiduciary responsibility over the pension plan. The Retirement Board utilizes third-party banking institutions as custodians over the plan's assets.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

Housing Authority

The Housing Authority was established pursuant to the State Health and Safety Code by the County Board to provide housing assistance to low and moderate-income families at rents they can afford. Eligibility is determined by family composition and income in areas served by the Housing Authority. Most of the housing programs administered by the Housing Authority are funded by contributions from the U.S. Department of Housing and Urban Development (HUD) pursuant to the United States Housing Act of 1937 and the HUD Act.

The Housing Authority's Board of Commissioners is composed of the same members as the County's Board. Decisions affecting the Housing Authority are addressed as part of the Board's overall meeting. As such, the activities of the Housing Authority are blended with the primary government.

In-Home Supportive Services (IHSS) Public Authority

The IHSS Public Authority maintains a registry and referral system to assist consumers in finding qualified in-home supportive services personnel as well as training of and support for providers and recipients of IHSS. The IHSS Public Authority is primarily funded by State grants. The County's Board is the governing body for the IHSS Public Authority. Therefore, this entity has been blended with the primary government.

(c) Discretely Presented Component Unit

First 5 San Mateo County

The First 5 San Mateo County (First 5), formerly known as The Children and Families First Commission, was established in March 1999 under the authority of the California Children and Families First Act of 1998 and sections 130100, et seq. of the Health and Safety Code. The County Board appointed all members of the First 5. The Board can remove appointed members at will. The First 5 administers receipts and disbursements of California Children and First Families Trust Fund allocations and appropriations. The First 5 is a discretely presented component unit as its governing body is not substantially the same as that of the County, and the First 5 does not provide services entirely or almost entirely to the County.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Implementation of Governmental Accounting Standards Board Statement

At June 30, 2003, the County adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 40, Deposit and Investment Risk Disclosures – an amendment of GASB Statement No. 3. The Statement modifies the custodial credit risk disclosures required by Statement No. 3, Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements and addresses deposit and investment risks related to credit risk, concentration of credit risk, interest rate risk, and foreign currency risk. Accordingly, the cash and investments disclosure has been revised to conform to the provisions of GASB Statement No. 40.

(b) Basis of Presentation

Government - wide Financial Statements

The *statement of net assets* and *statement of activities* display information about the primary government, the County, and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. Elimination has been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the County and between the County and its discretely presented component unit. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees charged to external parties.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

The *statement of activities* presents a comparison between direct expenses and program revenues for each different identifiable activity of the County's *business-type activities* and for each function of the County's *governmental activities*. Direct expenses are those that are specifically associated with a program or function and; therefore, are clearly identifiable to a particular function. Program revenues include 1) charges paid by the recipients of goods or services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented instead as general revenues.

When both restricted and unrestricted net assets are available, restricted resources are depleted first before the unrestricted resources are used.

Fund Financial Statements

The fund financial statements provide information about the County's funds, including fiduciary funds and blended component units. Separate statements for each fund category – *governmental*, *proprietary and fiduciary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds; each displayed in a separate column. All remaining governmental and enterprise funds are separately aggregated and reported as nonmajor funds.

Proprietary fund *operating* revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. *Nonoperating* revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The County reports the following major governmental funds:

- The General Fund is used to account for all revenues and expenditures necessary to carry out basic governmental activities of the County that are not accounted for through other funds. For the County, the General Fund includes such activities as public protection, public ways and facilities, health and sanitation, public assistance, education and recreation services.
- The *Joint Powers Financing Authority (JPFA)* accounts for the lease revenue bonds issued to generate funds needed to finance public capital improvements and the base rental payments paid by the County pursuant to Master Facility Leases.

The County reports the following major enterprise funds:

- The San Mateo Medical Center (SMMC) accounts for the hospital and clinical services provided to County residents. The hospital and clinical services were formerly accounted for in separate enterprise funds, San Mateo County General Hospital and Community Health Clinics. In FY 2002-03, these two enterprise funds were combined and renamed as the SMMC. The SMMC's revenues are principally fees for patient services, payments from federal and State programs such as Medicare, Medi-Cal and Short-Doyle, realignment revenues and subsidies from the General Fund.
- The *Housing Authority* accounts for the Housing Authority programs primarily funded by contributions from the federal Department of Housing and Urban Development (HUD) and tenants.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

The County reports the following additional fund types:

- Internal Service Funds account for the County's fleet maintenance and tower road construction provided to other
 departments or other governments as well as self-insurance programs including worker's compensation, long-term
 disability, employee benefits, and personal injury and property damage on a cost-reimbursement basis.
- The *Pension Trust Fund* accumulates contributions from the County, its employees and other participating employers, and earnings from the fund's investments. Disbursements are made from the fund for retirement, disability and death benefits (based on a defined benefit formula) and administrative expenses. This fund includes all assets of the SamCERA.
- The *Investment Trust Funds* account for the assets of legally separate entities that deposit cash with the County Treasurer. These entities include school and community college districts, other special districts governed by local boards, regional boards and authorities, and pass through funds from tax collections for cities. These funds represent the assets, primarily cash and investments, and the related liability of the County to disburse these monies on demand.
- The Agency Funds account for assets held by the County as an agent for various local governments and individuals.

(c) Basis of Accounting

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property and sales taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from sales tax are recognized when the underlying transactions take place. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Property and sales taxes, interest, certain state and federal grants, and charges for services are accrued when their receipt occurs within sixty days after the end of the accounting period so as to be both measurable and available. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to claims and judgments and compensated absences are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and capital leases are reported as other financing sources.

Private sector standards of accounting and financial reporting issued prior to December 1, 1989 generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of GASB. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to the same limitation. The County has elected not to follow subsequent private sector guidance.

(d) Cash and Cash Equivalents

For purposes of the accompanying statement of cash flows, the enterprise and internal service funds consider all highly liquid investments with a maturity of three months or less when purchased, and their equity in the County Treasurer's investment pool, to be cash equivalents.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

(e) Investments

The County sponsors an investment pool that is managed by the County Treasurer. The Treasurer invests on behalf of most funds of the County and external participants in accordance with the California State Government Code and the County's investment policy.

State statutes authorize the County to invest its cash surplus (excluding SamCERA) in obligations of the U.S. Treasury, agencies and instrumentalities, corporate bonds, bankers' acceptances, certificates of deposit, commercial paper, repurchase agreements, and the State of California Local Agency Investment Fund. SamCERA investments are made subject to guidelines of its investment plan approved by the Retirement Board (See Note 11).

Investment transactions are recorded on the settlement date. Investments in nonparticipating interest-earning investment contracts (guaranteed investment contracts) are reported at cost, commercial papers that have maturity of less than 90 days are reported at amortized cost, and all other investments are reported at fair value. The fair value represents the amount the County could reasonably expect to receive for an investment in a current sale between a willing buyer and seller. The fair value of investments is obtained by using quotations obtained from independent published sources.

Participant equity in the investment pool is determined by the dollar amount of participant deposits, adjusted for withdrawals and distributed investment income. Investment income is determined on an amortized cost basis. Amortized premiums and accreted discounts, accrued interest, and realized gains and losses, net of expenses, are apportioned to pool participants every quarter. This method differs from the fair value method used to value investments in these financial statements, on an annual basis, as unrealized gains or losses are not apportioned to pool participants. During the fiscal year ended June 30, 2003, the County Treasurer has not entered into any legally binding guarantees to support the participant equity in the investment pool.

Income from pooled investments is allocated to the individual funds or external participants based on the fund or participant's average daily cash balance at quarter end in relation to the total pool investments. Interest income earned in agency funds where there are no interest earnings requirements are assigned to the General Fund per County Policy. Income from nonpooled investments is recorded based on the specific investments held by the fund. The interest income is recorded in the fund that earned the interest.

(f) Mortgage Receivables

For the purpose of the fund financial statements, General Fund expenditures relating to long-term mortgage receivables arising from mortgage subsidy programs are charged to operations upon funding and the loans are recorded, net of an estimated allowance, for potentially uncollectible loans. The balance of the long-term receivable includes loans that may be forgiven if certain terms and conditions of the loans are met.

(g) Inventories

Inventories are stated at cost (first-in, first-out basis) for governmental funds and lower of average cost or market for proprietary funds. Inventory recorded by governmental funds includes postage and materials and supplies for roads. Governmental fund inventories are recorded as expenditures at the time the inventory is consumed. Reported inventories of governmental funds are equally offset by a fund balance reservation to indicate that portion of fund balance not available for future appropriation.

Inventory recorded in the proprietary funds mainly consists of maintenance supplies as well as pharmaceutical supplies maintained by the SMMC. Inventory is expensed as the supplies are consumed.

Notes to the Basic Financial Statements (Continued)
For the Fiscal Year Ended June 30, 2003
(Dollars in Thousands)

(h) Property Tax Levy, Collection and Maximum Rates

The State of California's (State) Constitution Article XIIIA provides that the combined maximum property tax rate on any given property may not exceed 1% of its assessed value unless an additional amount for general obligation debt has been approved by voters. Assessed value is calculated at 100% of market value, as defined by Article XIIIA, and may be adjusted by no more than 2% per year unless the property is sold or transferred. The State Legislature has determined the method of distribution of receipts from a 1% tax levy among the County, cities, school districts, and other districts. The total 2002-03 net assessed valuation of the County was \$87,152,884, after deducting \$8,302,123 for the redevelopment tax allocation increment.

The County assesses properties and bills for and collects property taxes as follows:

| | Secured | Unsecured |
|------------------------------|---------------------------------|--------------------|
| Valuation/lien dates | January 1 | January 1 |
| Levy dates | January 1 | January 1 |
| Due dates (delinquent after) | 50% on November 1 (December 10) | July 1 (August 31) |
| | 50% on February 1 (April 10) | |

The term "unsecured" refers to taxes on personal property other than land and buildings. These taxes are secured by liens on the property being taxed. Property tax revenues are recognized in the fiscal year for which they are levied, provided they are due and collected within sixty days after fiscal year-end. Property taxes are recorded as deferred revenue when not received within sixty days after fiscal year-end.

Effective July 1, 1993, the County began apportioning secured property tax revenue in accordance with the alternate method of distribution, the "Teeter Plan", as prescribed by Section 4717 of the California Revenue and Taxation Code. Under the Teeter Plan, penalties and interest collected on delinquent secured taxes are required to be held in trust in the Tax Loss Reserve Fund (TLRF). The primary purpose of TLRF is to cover losses that may occur as a result of special sales of tax-defaulted property. The County is legally required to maintain a minimum balance of 1% of the annual taxes levied on properties participating in the Teeter Plan, or approximately \$10 million at June 30, 2003. The balance in the TLRF was \$37 million at June 30, 2003. The County's management believes that any ownership rights to the TLRF the County may have are effective only upon a Board approved transfer or to the extent of losses related to the sale of tax defaulted property. Amounts in the TLRF are considered to be held in a custodial capacity for the participants in the County's Teeter Plan and accounted for in an agency fund.

(i) Capital Assets

Capital assets, including infrastructure, are recorded at historical cost or at estimated historical cost if actual historical cost is not available. Contributed capital assets are valued at their estimated fair market value on the date contributed. Capital assets include public domain (infrastructure) general fixed assets which consist of certain improvements including roads, bridges, water/sewer, lighting system, drainage systems, and flood control. The County defines capital assets as assets with an initial, individual cost of more than \$5 and an estimated useful life in excess of one year. Capital assets used in operations are depreciated or amortized (assets under capital leases) using the straight-line method over the lesser of the capital lease period or their estimated useful lives in the government-wide financial statements, proprietary funds and the pension trust fund.

The estimated useful lives are as follows:

| Infrastructure (except for the maintained pavement subsystem) | 20 to 50 years |
|---|----------------|
| Structures and improvements | 50 years |
| Equipment | 3 to 15 years |

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

The County has five networks of infrastructure assets – road, water/sewer, lighting, drainage, and flood control. The maintained pavement subsystem of the road network is reported using the modified approach. The County commissioned a physical assessment of the maintained pavement subsystem condition in FY2000-01. This condition assessment will be performed every three years. The County's maintained pavement subsystem has been classified as roads with or without formal structural sections. Each road segment is rated and given a Pavement Condition Index (PCI) value from zero to one hundred (0 – 100), where PCIs of 40 or higher are assigned to be a "Fair" or better condition and roads with PCIs of 55 or higher to be in a "Good" or better condition. The County's policy relative to maintaining the maintained pavement subsystem is to keep a minimum PCI level for roads with no defined structural section at 40 and for roads with a defined structural section at 55. Accordingly, depreciation is not reported for this subsystem and all expenditures, except for betterments and major improvements, made to the subsystem are expensed. Maintenance and repairs are charged to operations when incurred. Betterments and major improvements, which significantly increase values, change capacities or extend useful lives, are capitalized. Upon sale or retirement of capital assets, the cost and related accumulated depreciation are removed from the respective accounts and any resulting gain or loss is included in the results of operations.

(j) Compensated Absences (Accrued Vacation, Sick Leave, and Compensatory Time)

The County accrues for compensated absences in the government-wide and proprietary fund financial statements for which they are liable to make a payment directly. The County includes its share of social security and Medicare taxes payable on behalf of the employees in the accrual for compensated absences.

Unused vacation leave may be accumulated up to a specified maximum and is paid at the time of termination from County employment. The County is not obligated to pay for unused sick leave if an employee terminates prior to retirement. However, upon retirement, the County will convert each day of accrued sick leave to one month of post retirement medical or dental premium coverage for management employees and not to exceed \$125 to \$481 per month for non-management employees depending on the employee's memorandum of understanding. During the current year, the County reevaluated its computation for the accrued sick leave healthcare benefit conversion provision for both its active employees and retirees and segregated the computation of the compensated absences liability based on each employee's employment classification. In prior years, the County treated the retirees' sick leave healthcare conversion benefits on a pay-as-you-go basis and did not include retirees in its compensated absences liability computation and computed the liability based on the average non-management monthly benefit. This correction in the method of computing the compensated absences liability is being treated as a prior period adjustment, and accordingly, the governmental activities, business-type activities, and SMMC enterprise fund's net assets, as of June 30, 2002, have been restated and decreased in the amount of \$35,189, \$3,077, and \$3,077, respectively.

(k) Interfund Transactions

Interfund transactions are reflected as either loans, services provided, reimbursements or transfers. Loans are reported as receivables and payables as appropriate, are subject to elimination upon consolidation and are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). Any residual balances outstanding between the *governmental activities* and the *business-type activities* are reported in the government-wide financial statements as "internal balances". Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not available financial resources.

Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide presentation.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

(l) Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 3 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Deficit Fund Equity

The San Mateo Medical Center has a net asset deficit of \$6,228, which is expected to be removed in the future through increased collection efforts and cost containment.

The Worker's Compensation Insurance and Personal Injury and Property Damage internal service funds have net asset deficits of \$15,953 and \$3,794, respectively. These deficits are expected to be eliminated in future years through rate increases.

NOTE 4 - CASH AND INVESTMENTS

The County sponsors an investment pool that is managed by the County Treasurer for the purpose of increasing interest earnings through investment activities. Cash and investments for most County activities are included in the investment pool. Cash and investments managed separately from the investment pool include those of JPFA and SamCERA.

The investment pool also includes both voluntary and involuntary participation from external entities. The State of California statutes require certain special districts and other governmental entities to maintain their cash surplus with the County Treasurer. The net assets value of involuntary participation in the investment pool totaled \$1,376,651 at June 30, 2003.

The investment pool is not registered with the Securities and Exchange Commission as an investment company. Investments made by the Treasurer are regulated by the California Government Code and by the County's Investment Policy. The objectives of the policy are in order of priority, safety, liquidity, yield and public trust. The County has established a treasury oversight committee to monitor and review the management of public funds maintained in the investment pool in accordance with Article 6 Section 27131 of the California Government Code. The oversight committee and the Board of Supervisors reviews and approves the investment policy annually. The County Treasurer prepares and submits a comprehensive investment report to the members of the oversight committee and the investment pool participants every month. The report covers the type of investments in the pool, maturity dates, par value, actual cost and fair value.

Total County cash and investments at fair value as of June 30, 2003 were as follows:

| Cash: | | |
|--|------|-----------|
| Cash on hand | \$ | 206 |
| Deposit overdrafts | | (27,747) |
| Total cash overdrafts | | (27,541) |
| Investments: | | |
| in Treasurer's pool | 2 | 2,242,470 |
| with Fiscal Agents | | 31,322 |
| in Pension portfolio | 1 | 1,243,649 |
| with others external to the Treasurer's pool | | 3,639 |
| Total investments | 3 | 3,521,080 |
| Total cash and investments | \$ 3 | 3,493,539 |
| | | |

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

Total County cash and investments are reported as follows:

| Primary government | \$ 398,404 |
|----------------------------|-----------------|
| Component unit | 32,363 |
| Pension trust | 1,245,082 |
| Investment trust fund | 1,601,493 |
| Agency funds | 216,197 |
| Total cash and investments | \$ 3,493,539 |

Investments

As of June 30, 2003, the County had the following investments:

| | Interest Rates | Maturities | Par | Fair Value | Weighted Average Maturity (Years) |
|---|----------------|---------------------|------------|--------------|--------------------------------------|
| Investments in Investment Pool | | | | | |
| U.S. government securities: | | | | | |

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

Interest Rate Risk.

- County Investment Pool. The County manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to five years or less in accordance with its investment policy. The County invested \$41,428 in asset backed securities. These securities are based on cash flows for payments on underlying auto loans. Therefore, they are sensitive to prepayments by borrowers, which may result from a decline in interest rates. The County invested \$168,300 in floating rate securities. These are tied to the three month London Interbank Offered Rate (LIBOR) index.
- San Mateo Joint Power Financing Authority's investment portfolio. The Authority does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The Authority has exposure to interest rate risks by investing \$12,653 or 78% of its investment in guaranteed investment contracts. Under these contracts, the Authority receives a fixed rate of return annually and the principal amount invested at maturity. The weighted average maturity of its investment portfolio approximates to 18 years.
- SamCERA's Investment portfolio. SamCERA's Investment Plan does not have a formal policy that limits
 investment maturities as a means of managing its exposure to fair value losses arising from increasing interest
 rates.

Credit Risk.

County Investment Pool. State law and the County's Investment Policy limit investments in commercial paper to the rating of A1 by Standards & Poor's or P-1 by Moody's Investors Service. State law and the County's Investment Policy also limit investments in corporate bonds to the rating of A by both Standards & Poor's and Moody's Investors Service. The County does not have credit limits on government agency securities.

| Investement Type | Standard & Poor's | % of Portfolio |
|---|-----------------------------|---|
| Asset backed securities | AAA | 1.85% |

| Total | | 100.00% |

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

• San Mateo Joint Power Financing Authority's investment portfolio. Provisions of the JPFA's bond trust agreements limits the JPFA's investment in investment agreements to be with a domestic or foreign bank or corporation (other than a life or property casualty insurance company) whereby the long-term debt of which, or, in the case of a monoline financial guaranty insurance company, claims paying ability, the guarantor is rated at least "AA" by Standard and Poor's Corporation and "Aa" by Moody's Investors Service.

As of June 30, 2003, the JPFA's investment in guarantee investment contracts had the following credit ratings:

| | | Moody's |
|-------------|------------|-----------|
| | Standard & | Investors |
| Amount | Poor's | Service |
| \$ 5,470 | AAA | Aaa |
| 5,656 | AA | Aa2 |
| 1.527 | AAA | Aaa |

In addition, the JPFA limits its investments in money market funds to the rating of "AAm" or "AAm-G" by Standard and Poor's Corporation or better. The JPFA's investment in money market funds were rated AAAm by Standard and Poor's.

■ SamCERA's investment portfolio. SamCERA's Investment Plan has three requirements addressing fixed income quality. First, the minimum average rating of the total portfolio of fixed income assets under a manager's supervision must be "A" or better (Standard & Poor's or Moody's equivalent), dollar weighted at market value. Second, the minimum quality rating eligible for the portfolio is "B" or better (as rated by Standard & Poor's or Moody's equivalent). The third requirement is that no more than 10% of SamCERA's fixed income assets under a manager's supervision shall be invested in securities with a rating below Baa3, BBB-, P-1 or A-1.

The quality breakdown of SamCERA's investments in bonds on June 30, 2003 is indicated in the table below.

| Credit | Active | Passive |
|--------|------------|------------|
| Rating | Management | Management |
| AAA+ | 38.04% | 68.12% |
| AAA | 33.20% | 6.05% |
| AA | 4.97% | 4.89% |
| A | 14.11% | 10.27% |
| BBB | 9.68% | 9.58% |
| Baa | - | - |
| NR | <u> </u> | 1.09% |
| | 100.00% | 100.00% |

Concentration of Credit Risk.

- County Investment Pool. State law and the County's Investment Policy limit investments in commercial paper to 40% of the County Investment Pool and 10% of the County Investment Pool per issuer. At June 30, 2003, the County has 8.92% of its County Investment Pool in commercial paper and did not have any investments 10% or more of the County Investment Pool per issuer. State law and the County's Investment Pool and 10% of the County Investment Pool per issuer. At June 30, 2003, the County has 17.31% of its County Investment Pool in corporate bonds and did not have any investments 10% or more of the County Investment Pool per issuer.
- San Mateo Joint Power Financing Authority's and SamCERA's investment portfolios. The JPFA and SamCERA place no limit on the amount that may be invested in any one issuer.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

Local Agency Investment Fund

At June 30, 2003, the County's investment position in the State of California Local Agency Investment Fund (LAIF) is \$37,209, which approximates fair value and is the same as the value of the pool shares. The total amount invested by all public agencies in LAIF on that day is \$55,423,000 managed by the State Treasurer. Of that amount, 98% is invested in non-derivative financial products and 2% in derivative financial products. The Local Investment Advisory Board (Board) has oversight responsibility for LAIF. The Board consists of five members as designated by State Statute.

Securities Lending Transactions

State statutes and the County's investment policy permit the use of securities lending program with its principal custodian bank. The investment policy allows the custodial bank (Custodian) to lend up to 20% of the portfolio within the guidelines of the investment policy. The custodial agreement with the County's Custodian authorizes such custodian to loan securities in the County investment portfolio under such terms and conditions as the County's Custodian deems advisable and to permit the loaned securities to be transferred into the name of the borrowers. The loaned securities represent securities on loan to brokers or dealers or other borrowers by the County's investment pool. The County receives a fee from the borrower for the use of the loaned securities. If the loaned securities are not returned by the borrower, the County's Custodian is responsible for replacement of the loaned securities with other securities of the same issuer, class and denomination, or if such securities are not available on the open market, the County's Custodian is required to credit the County's account with the market value of such unreturned loaned securities. All securities loan agreements can be terminated on demand within a period specified in each agreement by either the County or borrowers.

Securities lending collateral represents investments in an investment pool purchased with cash collateral that may not be pledged or sold without default by the borrower. Securities lending transactions collateralized with securities that cannot be pledged or sold without borrower default are not reported as assets and liabilities in the statement of net assets. The County did not have any collateral at June 30, 2003 that represented securities. The County does not match the maturities of investments made with cash collateral with the securities on loan.

The loaned securities as of June 30, 2003 consisted of U.S. Treasury notes and bonds, U.S. government securities, and corporate bonds. In return, the County receives collateral in the form of cash or securities equal to at least 102% of the transferred securities plus accrued interest for reinvestment. Cash collateral is invested in the lending agent's short-term investment pool, which at year-end has a weighted average maturity of 20 days. The relationship between the maturities of the investment pool and the County's loans is affected by the maturities of the securities loans made by the other entities that use the agent's pool, which the County cannot determine.

As of June 30, 2003, the underlying securities loaned by the County's investment pool amounted to approximately \$371,181. The cash collateral totaled \$378,544. The County has no exposure to credit risk related to the securities lending transactions as of June 30, 2003 because the amounts owed to borrowers exceed the amounts the borrowers owe to the County.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

County Investment Pool Condensed Financial Information.

The following represents a condensed statement of net assets and changes in net assets for the investment pool at June 30, 2003:

| Assets: | |

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

Governmental funds report deferred revenues in connection with receivables for revenues not considered available to liquidate liabilities of the current period. Governmental and enterprise funds also defer revenue recognition in connection with resources that have been received or accrued but not yet earned.

At June 30, 2003, the components of deferred revenue and unearned revenue reported were as follows:

| | Unavailable | | Une | earned |
|---|-------------|--------|-----|--------|
| Governmental activities: | | | | |
| General fund: | | | | |
| Property taxes receivable | \$ | 1,736 | \$ | 14,350 |
| Grant drawdowns prior to meeting all eligibility requirements | | - | | 10,308 |
| Due from other governmental agencies | | 27,181 | | - |
| Other receivables and advances | | 4,194 | | - |
| Nonmajor funds: | | | | |
| Property taxes receivable | | 171 | | 1,059 |
| Property assessment tax receivable | | - | | 55 |
| Due from other governmental agencies | | | | 352 |
| Total governmental activities | \$ | 33,282 | \$ | 26,124 |
| Business-type activities: | | | | |
| Grant drawdowns prior to meeting all eligibility requirements | | | | |
| Housing Authority | | | \$ | 320 |
| Nonmajor enterprise funds | | | | 88 |
| Total business-type activities | | | \$ | 408 |

NOTE 6 – INTERFUND TRANSACTIONS

The composition of interfund balances as of June 30, 2003 was as follows:

Due to/from other funds:

| Receivable Fund | Payable Fund | Amount |
|-----------------------------|-----------------------------|-----------|
| General Fund | Nonmajor Governmental Funds | \$ 1,781 |
| | San Mateo Medical Center | 12,922 |
| | Nonmajor Enterprise Funds | 7 |
| | Internal Service Funds | 257 |
| | Agency Funds | 811 |
| | | 15,778 |
| Nonmajor Governmental Funds | General Fund | 458 |

| | | 5,176 |
| Total | | \$ 28,449 |

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

During the year, the SMMC borrowed \$12,922 from the General Fund to cover its operating cash deficits. This amount will be repaid in the following fiscal year.

Advances to /from other funds:

| Payable Fund | A | mount |
|-----------------------------|---|---|
| San Mateo Medical Center | \$ | 4,041 |
| Housing Authority | | 884 |
| Agency Fund | | 70 |
| | | 4,995 |
| General Fund | | 3,000 |
| Nonmajor Governmental Funds | | 7 |
| | | 3,007 |
| | \$ | 8,002 |
| | San Mateo Medical Center Housing Authority Agency Fund General Fund | San Mateo Medical Center \$ Housing Authority Agency Fund General Fund Nonmajor Governmental Funds |

The General Fund advanced a \$4,041 to the SMMC to finance its health information technology project. The Accumulated Capital Outlay capital project fund advanced \$3,000 to the General Fund to provide working capital for an Employee Housing Opportunity Program. The advances are not expected to be repaid in the short-term.

All remaining interfund balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Transfers

Transfers are indicative of funding for capital projects, lease payments or debt service, subsidies of various County operations and re-allocations of special revenues. The following schedules briefly summarize the County's transfer activities:

(a) Between Governmental and Business-type Activities:

| Transfer from | Transfer To | Amount | Purpose |
|-----------------------------|-----------------------------|-----------|---|
| Operating or debt subsidy: | | | |
| General Fund | San Mateo Medical Center | \$ 31,525 | Provide subsidy to support hospital operations. |
| | San Mateo Medical Center | 6,818 | Provide subsidy to support clinical operations. |
| | San Mateo Medical Center | 428 | Provide funds to finance medical research. |
| | | 38,771 | • |
| Nonmajor Governmental Funds | San Mateo Medical Center | 252 | Provide transportation subsidy to various programs. |
| San Mateo Medical Center | Nonmajor Governmental Funds | 9,620 | Transfer funds to cover debt service payments. |
| Total | | \$ 48,643 | • |

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

Depreciation

Depreciation expense was charged to governmental functions as follows:

| General government | \$ 3,039 |
|--|--------------|
| Public protection | 4,226 |
| Public ways and facilities | 812 |
| Health and sanitation | 2,937 |
| Public assistance | 582 |
| Recreation | 498 |
| Depreciation on capital assets held by the County's internal service funds | |
| charged to the various functions based on their usage of the assets | 1,850 |
| Total depreciation expense - governmental functions | \$ 13,944 |

Depreciation expense was charged to the business-type functions as follows:

| San Mateo Medical Center | \$ 610 |
|--|-------------|
| Housing Authority | 698 |
| Airports | 231 |
| Coyote Point Marina | 230 |
| Total depreciation expense - business-type functions | \$ 1,769 |

Construction in Progress

Construction in progress for governmental activities represents work being performed on the Colma Creek flood control zone, the sheriff's radio system, and a number of smaller projects.

Capital Projects Commitments

The Colma Creek Flood Control Network was 85% complete as of June 30, 2003 and will be done in six phases as follows: South Airport, Old Mission Road, Mainline Railroad Bridge, El Camino Real Box, San Mateo Avenue Bridge and Open Channel Over BART. Management believes this project will be completed during the year ending June 30, 2005. The commitments outstanding as of June 30, 2003 totaled \$17,049.

In 2001 the JPFA issued lease revenue bonds to acquire a microwave and law enforcement mutual aid communications system, a sheriff's radio system, and to construct a forensics laboratory and coroner's office for the County. The mutual aid communications system and the forensics laboratory and coroner's office project were completed in January 2003. The commitments outstanding for the sheriff's radio system were \$1,963 as of June 30, 2003.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

NOTE 8 – LEASES

Operating Leases

The County is committed under various noncancelable operating leases, primarily for office buildings and equipment (principally in the General Fund). Future minimum operating lease commitments are as follows:

| Year ending June 30, | |
|----------------------|--------------|
| 2004 | \$ 8,758 |
| 2005 | 8,410 |
| 2006 | 7,592 |
| 2007 | 6,199 |
| 2008 | 5,460 |
| 2009-2013 | 9,656 |
| Total | \$ 46,075 |

Rent expenditures were \$9,275 for the year ended June 30, 2003. The County also leases various properties to businesses and other governmental agencies. Operating lease revenues from such rentals were \$652 for the year ended June 30, 2003.

Capital Leases

The County has entered into certain capital lease agreements under which the related equipment will become the property of the County when all terms of the lease agreements are met.

| | | Present | t Value of |
|--|---------------|----------|------------|
| | Stated | Remainir | g Payments |
| | Interest Rate | at June | 30, 2003 |
| Governmental fund activities: | | | _ |
| Energy efficiency project | 5.08% | \$ | 131 |
| Business-type activities: | | | |
| Medical equipment | 4.69% - 7.05% | | 117 |
| Total Capital Lease Obligations | | \$ | 248 |
| | | | |

Equipment and related accumulated amortization under capital lease are as follows:

| | rnmental tivities | iness-type ctivities |
|--------------------------------|----------------------|-------------------------|
| Equipment | \$ 560 | \$ 72 |
| Less: accumulated amortization | (439) | (66) |
| Net value | \$ 121 | \$ 6 |

As of June 30, 2003, capital lease annual amortization was as follows:

| Year ending June 30: | rnmental tivities | iess-type tivities |
|-------------------------------------|----------------------|-----------------------|
| 2004 | \$ 127 | \$ 95 |
| 2005 | 11 | 28 |
| Total requirements | 138 | 123 |
| Less interest | (7) | (6) |
| Present value of remaining payments | \$ 131 | \$ 117 |
| | | |

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

During the current year, the County reevaluated its computation for the accrued sick leave healthcare benefit conversion provision for both its active employees and retirees and segregated the computation of the compensated absences liability based on each employee's employment classification. In prior years, the County treated the retirees' sick leave healthcare conversion benefits on a pay-as-you-go basis and did not include retirees in its compensated absences liability computation and computed the employee accrued sick leave liability based on the average non-management monthly benefit. Accordingly, the compensated absences liabilities of the governmental activities as of June 30, 2002 were restated from \$34,807 to \$69,996 and the business-type activities from \$6,215 to \$9,292 to reflect this change in the method of computing the compensated absences liabilities.

Governmental funds that have been used to liquidate long-term liabilities of the governmental activities are as follows: Lease revenue bonds retirements and related interest payments are serviced by revenues generated from lease payments made by the General Fund on leased facilities. Certificate of participation retirements and related interest payments are serviced by revenues generated from the Flood Control Zone special revenue fund. Notes payable to the California Energy Commission and to Department of Water Resources are paid by the General Fund and County Service Area special revenue fund, respectively. Capital lease obligations and state settlement are paid by the General Fund. Estimated claims are liquidated by the cumulative charges for services recorded in the internal service funds. Compensated absences are generally liquidated by the General Fund and related special revenue funds.

As of June 30, 2003, annual debt service requirements of governmental activities to maturity were as follows:

| | | Le | ase Re | evenue Bo | nds | | Certificates of Participation | | | Notes Payable | | able | | |

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

Advance Refundings

(a) 1994 Series A Lease Revenue Bonds

On December 1, 1997, the JPFA issued \$63,205 lease revenue bonds of which \$34,525 was to advance refund \$31,180 of 1994 Series lease revenue bonds and the remaining funds were used for acquisition and construction of certain projects. At June 30, 2003, the outstanding lease revenue bonds were \$31,180 and are considered defeased.

(b) 1993, 1994 and 1995 Lease Revenue Bonds

On January 1, 1999, the JPFA issued \$113,140 lease revenue bonds to advance refund \$6,425 of 1993 Series lease revenue bonds, \$80,290 of 1994 Series A lease revenue bonds, and \$14,820 of 1995 Series A lease revenue bonds and to provide \$1,968 of additional financing for the costs of completing the San Mateo County Health Center. At June 30, 2003, the outstanding lease revenue bonds were \$61,535 and are considered defeased.

Legal Debt Limit

The County's legal debt service limit is 4% of the average annual County budget for the current and the preceding four fiscal years covering non-voter approved County debt obligations. At June 30, 2003, the County's legal annual debt service limit, as defined by Ordinance No. 3773, was approximately \$38,019.

Arbitrage

The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of all tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least every five years. During the current year, the County performed calculations of excess investment earnings on various bonds and financing and at June 30, 2003 does not expect to incur a liability.

NOTE 10 - NET ASSETS/FUND BALANCES

The government-wide and business-type activities fund financial statements utilize a net assets presentation. Net assets are categorized as invested in capital assets (net of related debt), restricted and unrestricted.

- Invested In Capital Assets, Net of Related Debt This category groups all capital assets, including infrastructure, into one component of net assets. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category.
- Restricted Net Assets This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Assets This category represents net assets of the County not restricted for any project or other purpose.

In the governmental fund financial statements, reserves and designations segregate portions of fund balance that are either not available or have been earmarked for specific purposes. The various reserves and designations are established by actions of the Board and management and can be increased, reduced or eliminated by similar action.

As of June 30, 2003, reservations of fund balance included:

• Advances to other funds - to reflect the amount due from other funds that are long-term in nature. Such amounts do not represent available spendable resources.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

- *Debt service* to reflect the funds held by trustees or fiscal agents for future payment of bond principal and interest. These funds are not available for general operations.
- Capital project to reflect the funds reserved capital project spending.
- Encumbrances to reflect the outstanding contractual obligations for which goods and services have not been received.
- *Inventories* to reflect the portion of assets that do not represent available spendable resources.

Portions of unreserved fund balance may be designated to indicate tentative plans for financial resource utilization in a future period, such as for general contingencies or capital projects. Such plans or intent are subject to change and have not been legally authorized or may not result in expenditures.

As of June 30, 2003, fund balance designations were reported in the following nonmajor governmental funds:

- Special revenue funds to reflect management's intent to expend certain funds to support the County's fire protection, service area, emergency medical services, transportation, road improvement, solid waste management, in-home support services, fish and game propagation, and development of off-highway vehicle trails and facilities.
- Capital project funds to reflect management's intent to expend certain funds for park acquisition, criminal facility, and courthouse construction capital projects.

NOTE 11 – EMPLOYEES' RETIREMENT PLAN AND POST RETIREMENT BENEFITS

San Mateo Employees' Retirement Association

(a) Plan Description

The following description of the San Mateo County Employees' Retirement Association (SamCERA) is provided for general information purposes. SamCERA is governed by the County Employees Retirement Law of 1937 (1937 Act). Members should refer to this Law for more complete information. SamCERA is controlled by the Retirement Board.

(b) General

SamCERA is a cost-sharing multiple-employer defined benefit pension plan established to provide retirement, disability and death benefits for substantially all employees of the County and the San Mateo County Mosquito Abatement District. The total number of plan participants at June 30, 2003 was 9,246 of which 9,232 were County employees and 14 were Mosquito Abatement District employees. SamCERA issues a publicly available financial report that includes financial statements and required supplementary information. The financial report may be obtained by writing to the San Mateo County Employees' Retirement Association, 100 Marine Parkway, Suite 125, Redwood Shores, California 94065.

(c) Benefit Provisions

SamCERA provides service retirement, disability and death benefits based on defined benefit formulas, which use final average compensation, years of service, and age factors to calculate benefits payable. In addition, SamCERA provides annual cost-of-living adjustments upon retirement for members of Plans One, Two and Four. The benefits of Plan Three are reduced by a portion of Social Security benefits received by the member. The 1937 Act vests the Board of Supervisors with the authority to initiate benefits, while Government Code Section 31592.2 empowers the Board of Retirement to provide certain ad hoc benefits when the Section 31592 reserve exceeds 1% of assets.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

(d) Summary of Significant Accounting Policies

Basis of Accounting: SamCERA uses the accrual basis of accounting. Investment income is recognized when it is earned and expenses are recognized when they are incurred. Contributions are recognized when due. Benefits and refunds are recognized when due and payable under the terms of the plan.

Cash and Investments: The Retirement Board has exclusive control of the investments of SamCERA. Government Code Section 31595 of the 1937 Act authorizes the Retirement Board to invest, or delegate the authority to invest, the assets of SamCERA in any investment allowed by statute and deemed prudent in the informed opinion of the Retirement Board.

SamCERA records investment transactions on the trade date. Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Real estate assets are reported at fair value utilizing an income approach to valuation. By contract, an independent appraisal is obtained once every three years to determine the fair market value of the real estate assets. In the interim years, real estate assets are reported at fair value utilizing an income approach to valuation.

Funding Policy: Both the plan members and their employers make contributions to SamCERA. The employee contribution rates are established and may be amended pursuant to Article 6 and 6.8 of the 1937 Act. The rates are determined by age at entry into SamCERA and are based on a percentage of covered compensation. The average employee contribution rate for the fiscal year was 5.7%. The employers are required to contribute at an actuarially determined rate, and the current annual required contribution is \$36,070 or 100% of the amount recommended by the actuary.

Annual Pension Cost: For the FY2002-03, the County's annual pension cost was equal to the County's required contributions. The required contribution was determined as part of the June 30, 2002 actuarial valuation using the Entry Age Normal Method. The actuarial assumptions included 8.25% investment rate of return and 6.25% projected salary increase attributed to inflation (4.25%) and adjustment for merit and longevity (2%). The actuarial value of SamCERA's assets was determined using techniques that smoothed the effects of short-term volatility in the market value over a 5-year period. SamCERA's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis over the period ending December 31, 2022.

Post Retirement Benefits

The County provides health care, vision, and dental benefits to retired employees who have accumulated sick leave hours upon retirement. To be eligible for these benefits, the employees other than public safety employees must retire from the County on or after attaining age 50 with at least ten years of service. The public safety employees are eligible to receive the post retirement health care benefits after attaining age 40. The County pays the post retirement healthcare benefits based on the Memorandum of Understanding with the various unions that the County's employees are enrolled. The County pays a portion of the annuitant healthcare premium based on the number of sick leave hours the annuitant has accrued. The County converts eight hours of accrued sick leave time to one month of post retirement medical or dental premium coverage for management employees and not to exceed \$125 to \$481 per month for non-management employees depending on the employee's memorandum of understanding. As of June 30, 2003, approximately 630 retirees were receiving post retirement health care, vision, and dental benefits from the County. The cost of these benefits in FY2002-03 was approximately \$2,298.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

NOTE 12 - RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disaster. The County currently reports its risk management activities in its Worker's Compensation Insurance, Long-Term Disability Trust, Employee Benefits Trust, and Personal Injury and Property Damage Funds (Internal Service Funds).

The County is self-insured for most insurable risks, except for excess insurance coverage provided by commercial insurance companies that are limited to the following:

- Real and personal property in excess of \$100 per incident, but limited to a maximum of \$575,431.
- Earthquake in excess of \$250 or 5% of the replacement value, whichever is more per incident, but limited to a maximum of \$25,000 in aggregate.
- Flood damage in excess of 5% of the replacement value per location, but limited to a maximum of \$25,000 in aggregate.
- General liability in excess of \$500 per incident, but limited to a maximum of \$20,000.
- Worker's Compensation in excess of \$1,000 per incident, but limited to statutory limit.
- Auto liability in excess of \$500 per incident, but limited to \$15,000.
- Malpractice in excess of \$10 per incident, but limited to a maximum of \$20,000 per claim and aggregate.

Settled claims have not exceeded the commercial coverage in any of the past three fiscal years and there has not been a significant reduction in coverage in FY2002-03.

All of the County funds participate in the insurance program and make payments to the corresponding internal service fund based on estimated costs to pay prior and current years' claims. The estimated claims liability of \$32,244 reported in the internal service funds at June 30, 2003 is based on requirements of GASB Statements No. 10 and 30. These statements require a liability for claims to be reported if information prior to issuance of the financial statements indicates that it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. Of the \$32,244 estimated claims liability at June 30, 2003, approximately \$29,467 was actuarially determined. The actuarially determined liability relates to workers' compensation, general liability and auto liability and it includes allocated expenses and a provision for incurred but not reported claims. The actuarially determined liability at June 30, 2003 was discounted at 5%. The estimated claims liability relating to the other areas of self-insurance was based upon historical trends and actual activity occurring in the first three months subsequent to June 30, 2003.

Changes to the internal service funds' claims liability amount for FY2001-02 and FY2002-03 were as follows:

| Liability at June 30, 2001 | \$ 24,792 |
|--|--------------|
| Current year claims and changes in estimates | 16,512 |
| Claim payments | (11,767) |
| Liability at June 30, 2002 | 29,537 |
| Current year claims and changes in estimates | 16,622 |
| Claim payments | (13,915) |
| Liability at June 30, 2003 | \$ 32,244 |

NOTE 13 – RELATED PARTY TRANSACTIONS

The following schedule presents significant transactions between the primary government and its component units during the year ended June 30, 2003:

Component Unit Significant Transactions

DEA Lassa revenue payments

JPFA Lease revenue payments to JPFA - \$9,295 Housing Authority Loans to Housing Authority - \$884

First 5 San Mateo County Administrative support charged to the Commission - \$549

Notes to the Basic Financial Statements (Continued)
For the Fiscal Year Ended June 30, 2003
(Dollars in Thousands)

NOTE 14 - COMMITMENTS AND CONTINGENCIES

Grants

The County recognizes as revenue, grant monies received as reimbursement for costs incurred in certain federal and State programs it administers. Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

Medicare and Medi-Cal Reimbursements

The SMMC provide health care services primarily to County residents. Net patient charges for service revenue is reported at estimated net realizable amounts from patients, third-party payers and others for services rendered and includes estimated retroactive revenue adjustments due to future audits, reviews and investigations. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered, and such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews and investigations.

Revenue from Medicare and Medi-Cal programs accounted for approximately 29% and 61%, respectively, of the hospital's net patient charges for services revenue and approximately 23% and 52%, respectively, of the health clinic's net patient charges for services revenue for the year ended June 30, 2003. Laws and regulations governing the Medicare and Medi-Cal programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

San Mateo County Employees' Retirement

On August 14, 1997, the Supreme Court of the State of California issued a decision in the matter of *Ventura County Deputy Sheriff's Association vs. Board of Retirement of the Ventura County Employees' Retirement Association* which held that compensation paid in cash, even if not earned by all employees in the same grade or class, must be included in compensation earnable and final compensation on which an employee's retirement benefit is based. This California Supreme Court decision became final on October 1, 1997.

The *Ventura* decision was silent on two critical issues: terminal pay and retroactivity. These issues will be decided as a result of a current lawsuit, *Teamsters Local 856 vs. Board of Retirement, San Mateo County.* During FY 2001-02, the trial court considered and rejected claims by petitioners that *Ventura* mandated the inclusion of terminal pay, third party payments, and employer pickups of employee contributions in the calculation of final compensation. During FY 2001-02, the trial court considered and accepted claims by petitioners that *Ventura* should be applied retroactively and that the pensions of all retirees and their beneficiaries, regardless of when they retired, must be recalculated. Appeals of the trial court's decisions have been filed by both petitioners and defendants with the California Court of Appeals.

SamCERA retained an actuary to estimate the financial impact of a range of possible decisions in the *Teamsters Local* 856 litigation. In the event Teamsters Local 856 prevails, SamCERA estimates that as of the June 30, 1998 Actuarial Valuation the possible increase in the unfunded actuarial accrued liability ranges between \$180 million and \$265 million. However, if the Superior Court decision on the current litigation stands, the actuary estimates that the contingent liability totaled \$16 million as of June 30, 2002, with interest on the liability compounding at 7% simple per annum. A \$32 million reserve has been established as a component of SamCERA's net asset balance to fund this contingent liability.

Notes to the Basic Financial Statements (Continued) For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

Automated Child Support Systems

Federal legislation required all states to have statewide automated child support system by 1997. California failed to develop the mandated system and has been paying federal penalties since 1997. In prior years, the penalties were paid from the State General Fund. For FY 2003-04, the State passed federal penalties onto the State's 58 counties and required the penalties be paid from the counties' General Funds. The State has determined that the County's share of penalties for FY 2003-04 is approximately \$793.

Pending Litigation

The County is also a defendant in several lawsuits arising in the normal course of business. In the aggregate, these claims seek monetary damages in significant amounts. To the extent the outcome of such litigation has been determined to result in probable loss to the County, such loss has been accrued in the accompanying financial statements. Litigation where loss to the County is reasonably possible has not been accrued; however, County management and Counsel estimate such loss to total \$1,715 million.

NOTE 15 – SUBSEQUENT EVENTS

Final Ruling on Ventura Decision - Teamsters Local 856 vs. Board of Retirement, San Mateo County

On October 14, 2003, the California Supreme Court announced that it would not accept appeals of the Ventura Decision. The Court ordered SamCERA to recalculate pensions of all retirees who retired prior to October 1, 1997. SamCERA's actuary has estimated that the cost of pension benefits will be increased by approximately \$16 million. This amount will be decreased if the Retirement Board determines to collect arrears contributions on the increased pensions. The increased pension benefits will be paid from the Ventura contingency reserve fund of \$32 million.

Lease Revenue Bonds

On November 18, 2003, the JPFA issued \$155,350 of lease revenue bonds Series 2003A, Series 2003B and Series 2003C in the amount of \$66,725, \$66,825 and \$21,800, respectively. The bonds were issued to finance a portion of the costs of acquisition and construction of a new youth services campus including a juvenile hall, a juvenile court, girls camp, community school, receiving home, group home and probation offices for the County. The bonds bear interest at the auction rates for the initial auction periods, until conversion to an auction rate period of different length or an interest rate period. The maturity date of the bonds is July 15, 2036.

Vehicle License Fee Repeal

In December 2003, the State repealed the vehicle license fee that provides financial support to counties and local governments. The County is expecting a loss in revenues of \$45 million that will affect various County programs. At this time, the state has not identified or approved any financial relief to offset this loss.

Burlingame Health Center

On August 1, 2003, the Medical Center became the licensed long-term provider for the 281 bed Burlingame Healthcare Center. Sycamore Heathcare Management, Incorporation, a company operated by the previous receiver, was maintained under a management contract with the County until October 15, 2003, at which time the County transitioned to full control and management of the center. The Burlingame Healthcare Center is licensed as a "Distinct Part Unit" skilled nursing facility which allows the medical center to receive higher Medi-Cal reimbursement than a freestanding long-term care center.

Required Supplementary Information

Required Supplementary Information For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

1. INFRASTRUCTURE ASSETS REPORTED USING THE MODIFIED APPROACH

The County manages its maintained road subsystem of the road network using the Metropolitan Transportation Commission's Pavement Management Program (Program) and accounts for them using the modified approach. The Program establishes a Pavement Condition Index (PCI) on a scale from zero to one hundred (0 - 100) for each road segment being maintained by the Department of Public Works. The Program has defined the pavement of roads with PCI's of 40 or higher to be in a "Fair" or better condition and roads with PCI's of 55 or higher to be in a "Good" or better condition. It is the County's policy to maintain at least 75 percent of its primary maintained pavement subsystem at a PCI of 55 or higher and the secondary maintained pavement subsystem at a PCI of 40 or higher. Condition assessments are determined every three years.

As of June 30, 2003, the County's maintained pavement subsystem was rated at a PCI index of 76 on the average for primary roads and 54 for secondary roads with the detail condition as follows:

| | Prim | ary | Secon | dary |
|----------------------------|-----------|---------|-----------|---------|
| | Number of | _ | Number of | |
| PCI Condition Rating | Miles | Percent | Miles | Percent |
| Primary: | | | | |
| Good to excellent (55-100) | 119.56 | 78.6 | | |
| Substandard to fair (0-54) | 32.50 | 21.4 | | |
| Secondary: | | | | |
| Fair to excellent (40-100) | | | 125.06 | 75.6 |
| Substandard to fair (0-39) | | | 40.38 | 24.4 |
| Total | 152.06 | 100.0 | 165.44 | 100.0 |
| | | | | |

For the year ended June 30, 2003, actual maintenance and preservation costs were more than estimated by \$215 or 3 percent.

| | Estimated Maintenance & | Actual Maintenance & | |
|-------------|-------------------------|----------------------|----------|
| Fiscal Year | Preservation Costs | Preservation Costs | Variance |
| 2001 | \$ 13,750 | \$ 7,786 | \$ 5,964 |
| 2002 | 7,859 | 12,675 | (4,816) |
| 2003 | 6,400 | 6,615 | (215) |

2. SCHEDULE OF FUNDING PROGRESS

SamCERA issues a publicly available financial report that can be obtained by writing to the San Mateo County Employees' Retirement Association, 100 Marine Parkway, Suite 125, Redwood Shores, California 94065. The actuarial value of assets as a percentage of the actuarial accrued liability and the unfunded actuarial accrued liability as a percentage of the annual covered payroll as of June 30, 2003 are obtained from SamCERA's annual actuarial report.

| | |] | Entry Age | U | nfunded/ | | | UAAL |

General Fund

General Fund

The *general fund* is used to account for all revenues and expenditures necessary to carry out basic governmental activities of the County that are not accounted for through other funds. For the County, the general fund includes such activities as public protection, public ways and facilities, health and sanitation, public assistance, education and recreation services.

| Total expenditures as reported on the statement of revenues, expenditures, and changes in fund balances - governmental funds | \$ | 565,751 |
| and changes in fund balances - governmental funds | ψ | 303,731 |

Notes to Required Supplementary Information For the Fiscal Year Ended June 30, 2003 (Dollars in Thousands)

BUDGETARY BASIS OF ACCOUNTING

In accordance with the provisions of Sections 29000 and 29143, inclusive, of the California Government Code and other statutory provisions, commonly known as the County Budget Act, the County prepares a budget for each fiscal year on or before August 30. Budgeted expenditures are enacted into law through the passage of an Appropriation Ordinance. This ordinance mandates the maximum authorized expenditures for the fiscal year and cannot be exceeded except by subsequent amendments to the budget by the County's Board of Supervisors.

An operating budget is adopted each fiscal year for all Governmental Funds except for the JPFA. Expenditures are controlled at the object level within budget units for the County. The object level within a budget unit is the level at which expenditures may not legally exceed appropriations. Any amendments or transfers of appropriations between object levels within the same budget unit or between departments or funds are authorized by the County Manager's office and must be approved by the Board of Supervisors. Supplemental appropriations normally financed by unanticipated revenues during the year must be approved by the Board of Supervisors. Pursuant to Board Resolution, the County Manager is authorized to approve transfers and revision of appropriations under \$50,000 within a single budget unit as deemed necessary and appropriate. Budgeted amounts in the budgetary financial schedules are reported as originally adopted and as amended during the fiscal year by resolutions approved by the Board of Supervisors.

The County uses an encumbrance system as an extension of normal budgetary accounting for the general, special revenue, and other debt service funds and to assist in controlling expenditures of the capital projects funds. Under this system, purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of applicable appropriations. Encumbrances outstanding at year-end are recorded as reservations of fund balance since they do not constitute expenditures or liabilities. Encumbrances are combined with expenditures for budgetary comparison purposes. Unencumbered appropriations lapse at year-end. Encumbered appropriations are carried forward in the ensuing year's budget.

The budget approved by the Board of Supervisors for the General Fund includes budgeted expenditures and reimbursements for amounts disbursed on behalf of other governmental funds. Actual reimbursements for these items have been eliminated in the accompanying budgetary financial schedules. Accordingly, the related budgets for these items have also been eliminated in order to provide a meaningful comparison of actual and budgeted results of operations.

The budgets for the governmental funds may include an object level known as "intrafund transfers" in the charges to appropriations. This object level is an accounting mechanism used by the County to show reimbursements between operations within the same fund (an example would be the General Fund).

The amounts reported on the budgetary basis differ from the basis used to present the basic financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP). Annual budgets are prepared on the modified accrual basis of accounting except that current year encumbrances are budgeted as expenditures, certain transactions are accounted for in different periods between budgetary and GAAP reporting basis, and transactions from sub-funds reclassified from County Agency funds are reported in GAAP reporting basis.

Nonmajor Governmental Funds

Special Revenue Funds

Special revenue funds are used to account for revenues that are restricted by law or administrative action and expenditures for specified purposes. Nonmajor special revenue funds used by the County are listed below:

The *Road Fund* provides for planning, design, construction, maintenance and administration of County transportation planning activities. Revenues consist primarily of the County's share of state highway user taxes and are supplemented by federal funds.

The *County Fire Protection Fund* provides fire protection services to both cities and unincorporated areas in the County. Property taxes provide most of the Fund's revenues.

The *County Service Area Fund* accounts for special district funds that provide water and refuse disposal services and lighting maintenance to specific areas in the County and are financed by property taxes and user charges.

The Sewer and Sanitation Fund accounts for special district funds that support construction and maintenance of reliable sanitary sewer systems, which allow sensitive sewage treatment and disposal in specific areas in the County and are financed by user charges and property taxes.

The *Flood Control Zone Fund* accounts for special district funds that provide services to control flood and storm waters within the districts. Revenues are primarily received from property taxes and federal grants.

The *Lighting Districts Fund* accounts for special district funds that enhance the safety of residents and businesses by providing adequate lighting systems to specific areas in the County and are primarily financed by property taxes.

The *Emergency Medical Services Fund* was established to implement Senate Bill 12/612 to provide financial assistance for individuals. This fund is financed by a special assessment imposed on court fines, forfeitures and traffic school fees.

The County Half-Cent Transportation Fund accounts for revenues generated by a special one-half cent sales tax that was approved by the voters of San Mateo County during 1988. This fund is restricted for transportation related programs sponsored by other County departments and outside agencies.

The County-Wide Road Improvement Fund accounts for mitigation fees imposed when building permits are issued to fund improvements to the County road system.

The *Solid Waste Fund* accounts for revenues related to the County management and operation of solid waste facilities owned by the County as well as aid from federal, state and other local agencies. The primary source of revenue comes from licenses, permits and franchise fees. Expenditures are specifically for programs in resource conservation.

Nonmajor Governmental Funds

Special Revenue Funds (Continued)

The *Public Authority IHSS Fund* allows for the maintenance of a registry and referral system to assist consumers in finding qualified in-home supportive services (IHSS) personnel as well as training of and support for providers and recipients of IHSS. Revenues primarily come from state grants.

The Other Special Revenue Funds account for the activities of several Special Revenue Funds that include:

- Fish and Game
- Off-Highway Vehicle License Fees
- Highlands Landscape Maintenance District
- Redevelopment Agency
- Water Districts
- Various Drainage Districts Funds

Nonmajor Governmental Funds

Debt Service Fund

Debt Service Fund is used to account for accumulation of resources for, and payment of, principal and interest on the County's general long-term debt.

The *Other Debt Service Fund* was established to centrally budget all County debt service payments. Amounts are transferred into this fund from the various funding sources before payments are made.

| Differences - budget to GAAP: | |
| Transfers to other funds are outflows of budgetary resources but are not expenditures for financial reporting purposes. | (9,358) |
| Total expenditures as reported on the combining statement of revenues, expenditures, and changes in fund balances - nonmajor governmental funds | \$ 1 |

Nonmajor Governmental Funds

Capital Project Funds

Capital Project Funds are used to account for financial resources to be used for the acquisition of land or acquisition and construction of major facilities other than those financed by the proprietary fund types.

Parks Acquisition Fund. This fund is used for the acquisition of land for the County Park System and the development of County park facilities. Revenue in this fund came from a one-time sale of land at San Bruno Mountain. Payments were made to this fund until August 1996 and interest has accrued on unspent balances. Revenue is currently received from grants and investment income.

Accumulated Capital Outlay Fund. This fund accounts for appropriations for County capital improvement projects, and facilities maintenance projects payments. Revenue is generated from the sale of County real property and from interest earnings on cash balances.

Criminal Facility Fund. For every \$10.00 of all criminal and traffic fines, bail and imposed penalties, a \$2.25 penalty assessment, which is added to the fine, is placed into this fund for purposes of construction, reconstruction, expansion, improvement, operation or maintenance of county criminal justice facilities which includes, but is not limited to, jails, women's centers, detention facilities, juvenile halls and courtrooms. A penalty assessment of \$1.50 is placed in this fund for every parking offense paid. The Probation Department of the County also deposits \$1.00 into this fund for every \$10.00 in fines collected pursuant to Government Code 76004.

Courthouse Construction Fund. Sources of revenue for this fund are identical to all the sources of revenues for the Criminal Facility Construction Fund above. Revenues received are intended for the construction, rehabilitation, lease and financing of courtrooms or of a courtroom building or buildings containing facilities necessary for the operations of the courts.

Other Capital Projects Fund. This fund was established to centrally budget other capital improvement projects in the County.

Nonmajor Enterprise Funds

Nonmajor Enterprise Funds

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is to have the costs (expenses, including depreciation and amortization) of providing goods or services to the general public on a continuing basis be financed primarily through user charges; or where the County has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The Airports Fund was established to provide for operations and maintenance of the San Carlos and Half Moon Bay aviation facilities. Revenues include receipts under rental and lease arrangements involving County airport facilities and federal aid.

The *Coyote Point Marina Fund* provides and maintains a fully utilized recreational facility for the boating public. Revenues arise from berth and facility rentals as well as interest earnings.

Internal Service Funds

Internal Service Funds

Internal Service Funds are used to account for the financing of goods and services provided by one department to other departments on a cost reimbursement basis. Internal Service Funds used at the County are listed below:

The *Fleet Maintenance Fund* is responsible for purchases and maintenance of all County vehicles and administers a lease program for county departments. Full service repair facilities are operated in Belmont and Redwood City.

The *Tower Road Construction Fund* provides quality, cost-effective maintenance, repair and renovation of County facilities to ensure a safe, accessible, efficient and attractive environment for the public and all County employees. Remodeling and other craft services beyond the scope of building maintenance is provided to County departments and other government agencies on a fee for service basis. Capital project management and support and maintenance services to the Lighting Districts are also provided by this unit.

The *Self-Insurance Funds* are established to account for administrative costs and for payments of claims under the various insurance programs. Revenues are primarily premiums paid by other operating funds and interest on investments. The insurance programs are:

- Worker's Compensation Insurance
- Long-Term Disability Trust
- Employee Benefits Trust
- Personal Injury and Property Damage

Fiduciary Funds

Fiduciary Funds

Trust Funds

Pension Trust - This Fund, which is under the control of the Board of Retirement, accumulates contributions from the County, its employees and other participating employers, and earnings from the investments. Disbursements are made for retirement, disability and death benefits (based on a defined benefit formula) and administrative expenses. This Fund includes all assets of the San Mateo County Employees' Retirement Association.

Investment Trust:

- External Investment Pool These funds are used by the County to account for the assets of legally separate entities that deposit cash with the County Treasurer. These include school and community college districts, other special districts governed by local boards, regional boards and authorities and pass through funds for tax collections for cities. These funds represent the assets, primarily cash and investments, and the related liability of the County to disburse these monies on demand.
- Individual Investment Account This fund is used to account for specific investments acquired for the
 Brisbane School District. These investments are separate from the County's investment pool. The
 income from and changes in the value of these investments affect only the Brisbane School District.

Agency Funds

The *County Library Fund* is governed by the Board of the San Mateo Joint Powers Authority (JPA). The JPA provides library services to 11 cities as well as all unincorporated areas of the County. The Board has 12 members, one representative from each of the 11 cities and one from the County Board of Supervisors. The main stream of revenue for this fund comes from property taxes.

The *Trial Courts Operation Fund* is solely financed by the State of California and administered by the San Mateo County Superior Court. Expenditures from this fund require written authorization from the Court's Presiding Judge or his/her designee. The County only holds a custodial relationship to this fund.

The *Unapportioned Tax Fund* accounts for property tax receipts awaiting apportionment to other local governmental agencies.

The *Public Administrator Fund* is used to account for all of the Public Administrator's monies held by the County in a fiduciary capacity.

The *Public Guardian Fund* is used to account for all of the Public Guardian's monies held by the County in a fiduciary capacity.

The *Other Agency Fund* is used to account for assets held for other governmental agencies and governmental units by the County in a fiduciary capacity.

STATISTICAL SECTION (Unaudited)

Statistical Section

This part of the County's comprehensive annual financial report presents detailed information as a context for understanding this year's financial statements, note disclosures, and required supplementary information. Data are grouped into five categories as follows:

Financial Trends Information

These schedules contain trend information that may assist the reader in assessing the County's current financial performance by placing it in historical perspective.

Revenue Capacity Information

These schedules contain information that may assist the reader in assessing the viability of the County's most significant local revenue source, the property taxes.

Debt Burden Information

These schedules present information that may assist the reader in analyzing the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.

Demographic & Economic Information

These schedules offer economic and demographic indicators that are commonly used for financial analysis and that can enhance a reader's understanding of the County's present and ongoing financial status.

Operating Information

These schedules contain service and maintenance indicators about how the information in the County's financial statements relates to the services the County provides and the activities it performs.

Note: The County implemented GASB Statement No. 34 in FY 2000-01. Schedules presenting government-wide information begin in that year.

| general revenues | - | 1.58% | 2.07% | | | | |

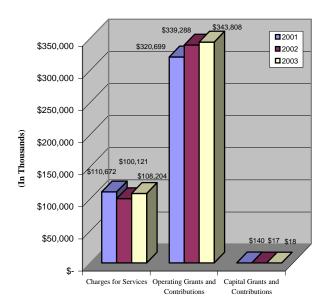

Note: ¹ Net (expense)/revenue is the difference between the expenses and program revenues of a function or program. It indicates the degree to which a function or program supports itself with its own fees and grants versus its reliance upon funding from taxes and other general revenues. Numbers in parentheses are net expenses, indicating that expenses were greater than program revenues and therefore general revenues were needed to finance that function or program. Numbers without parentheses are net revenues, meaning that program revenues were more than sufficient to cover expenses.

Changes in County's Net Assets

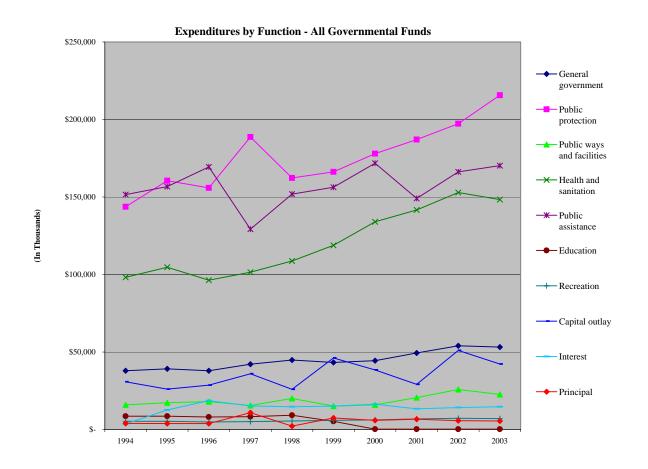

Notes:

- ¹ Capital assets include land, easements, infrastructure, construction in progress, structures & improvements, and equipment.
- Accounting standards require that net assets be reported in three components in the financial statements: invested in capital assets, net of related debt; restricted; and unrestricted. Net assets are considered restricted only when an external party, such as the state or federal governments, places a restriction on how the resources may be used, or through enabling legislation enacted by the County.

Total Taxable Assessed Value 1

Note: Article XIIIA, added to California Constitution by Proposition 13 in 1978, fixed the base for valuation of property subject to taxes at the full cash value which appeared on the Assessor's 1975-76 assessment roll. Thereafter, full cash value can be increased:

- a) to reflect annual inflation up to 2 percent;
- b) to reflect current market value at time of ownership change and
- c) to reflect market value for new construction.

Note:
1 California voters, on June 6, 1978, approved a constitutional amendment to Article XIIIA of the California Constitution, commonly known as Proposition 13, which limits the taxing power of California public agencies. Legislation enacted by the California Legislature to implement Article XIIIA (Statutes of 1978, Chapter 292, as amended) provides that notwithstanding any other law, local agencies may not levy property tax except to pay debt service on indebtedness approved by voters prior to July 1, 1978, and that each County will levy the maximum tax permitted by Article XIIIA of \$1 per \$100 of full cash value. Assessed value is equal to full cash value, pursuant to Senate Bill 1656, Statutes of 1978. The rates shown above are percentages of assessed valuation.

Business-type Activities

Notes:

Source: Comprehensive Annual Financial Reports - County of San Mateo, California

¹ Lease revenue bonds are limited obligations of the San Mateo County Joint Powers Financing Authority payable solely from, and secured by, revenues of the Authority. The Authority's revenues primarily consist of the base rental payments receivable from the County under a Master Facility Lease.

² Certificates of participation represent shares of lease-purchase payments for a flood control system made by the Authority. These tax-exempt certificates are sold publicly or privately to investors.

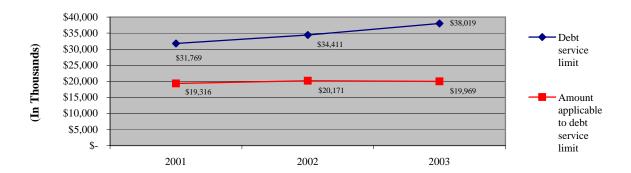

³ Capital lease obligations arise from lease agreements which are in-substance like purchases. The agreements convey property rights to the lessee, and tl lessee assumes substantially all of the risks and benefits of ownership.

Legal Debt Service Limit

Notes:

Source: Adopted Budget Book - County of San Mateo, California.

¹ The annual County budget represents the adopted annual budget of all funds in the County.

² County Ordinance No. 3773 requires the Board of Supervisors establish by resolution the County debt service limit annually. Under this ordinance, the debt service limit shall not exceed 4% of the average annual County budget for the current and the preceding four fiscal years, and shall be non-voter approved debt that is the obligation of the County.

³ The amount applicable to debt service limit represents the amount of debt service payment made towards non-voter approved debt that is the obligation of the County.

Direct debt per capita³

Notes:

Source: California Municipal Statistics, Inc.

¹ Redevelopment incremental valuation refers to the difference between base year assessed value and current year assessed value of properties in areas designated for redevelopment. Base year assessed value is the agreed upon value of a property at the time the redevelopment agency was established.

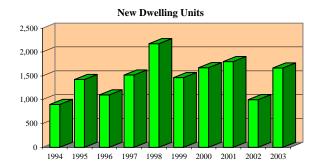

² Excludes revenue, mortgage revenue and tax allocation bonds, tax and revenue anticipation notes, and non-bonded capital lease obligations.

Direct debt per capita infomation prior to FY 1997-98 is not available.

Governmental Activities - Capital Assets ¹ (FY 2002-03)

Business-type Activities - Capital Assets (FY 2002-03)

Note: ¹ The County implemented GASB Statement No. 34 in FY 2000-01 and started reporting capital assets of both governmental and business-type activities at net book value with distinction made between depreciable and nondepreciable capital assets. Prior to FY 2000-01, capital assets of the governmental funds were not depreciated and infrastructure not reported, and therefore they are not included in this presentation.
