Concerning the evaluation of the seasonal recreation activity at the Arata pumpkin farm.

Due to the lack of parking at the pumpkin farm the traffic on Verde Rd has been completely blocked for long periods of time on the weekends, causing a problem for the neighboring residents.

i am especially concerned for the passage of emergency vehicles that may be needed.

it was my understanding, after attending the county meetings concerning the permit for the farm, that parking facilities were supposed to be provided by the Arata pumpkin farm to alleviate the traffic congestion.

My residence is at 500 Verde Rd and I am an adjacent property owner to the ranch.

Thanks,
BobLanig
