---

Hello,

I'm writing in response to the letter that I've received for the March 10th agenda - Coastside Design Review Committee meeting - specifically for #1 and #2 (El Granada).

A new home is under construction right up the street from me on The Alameda - it's been going on for 3 or 4 months. During the week (M-F) - there's been occasions when they start work before 8AM. There's also been several weekends (Saturday) when they use their equipment before 8A (7:30)!!!

My request for the new homes (construction work) - please respect your neighbors and conduct your work during legal hours (after 8AM). And please - NO construction on weekends.

I live and work from home and it's noisy enough with the PG&E work, new home construction, tree trimming, etc. - I'd appreciate some peace and quiet in the mornings each weekend (catch up on my sleep).

Thank you,  
Devin Squaglia  
El Granada homeowner/resident

Glen, thanks for getting us this referral. Since it was discovered only once it was scheduled for CDRC review, we have had limited time to review it, but overall have no major comment. We assume that CDRC will comment on the rather boxy appearance of the building and the degree to which grading is necessary.

We note that some of the plantings rely on species which are invasive.
